## ***Some Things Change... And Some Things Won't.***

What, how and where you're playing is different than what, how and where people were playing 50 years ago...or even last year. That's why Ibanez represents change. Some players and some companies play it safe and rest on what they did in the past. Ibanez and Ibanez players look forward and take risks.

Which is why Ibanez gears are always played by the most influential and hottest artists in every genre of music. It's why those artists keep inspiring new generations of players to get started with Ibanez.

Change and the input from these artists are the reasons there are so many changes in our 2005 lineup. Take a look at the top of the line of each series, our Ibanez Prestige models. You'll see even more variety and value than ever. In our so-called "standard" models, you will find a vast number of upgrades that make these instruments go far beyond what people usually think of as standard. For beginners there are more choices than before. And best, of all, our beginner instruments were designed to inspire. They look and sound just like the instruments that new players dream of.

One thing that hasn't changed is that all Ibanez instruments-from beginner to pro-feature the highest quality and affordable prices. So, wherever you are in musical development and whatever music you play, you'll find the right axes, amps, effects and accessories in this catalog.

There are also lots of actual snapshots in this catalog of life on the road with some of our Ibanez artists. You can compare these photos to your own road experiences or get prepared for your own first tour. Or you may even decide, you know, come to think of it, I'd rather just play at home. That's okay. As long as you keep playing. Because that's another thing that should never change.

# RGT basics

The look. The lethality. The ability to take it...and to dish it out. When it comes to metal guitars, the RG is in class by itself. And at the head of the class is the RG Prestige.

- New RGT Prestige models with 5pc neck-thru construction offer increased strength and sustain with easy playability in all registers.
- DiMarzio® IBZ pickups combined with the right placement provide hard-edged, cutting tone.
- Crafted by Ibanez's most experienced luthiers using the finest materials and electronics available.

## RGT3200 RBB

- 5pc Wizard Maple/Wenge neck-thru *Prestige*
- AAA Quilted Maple top/Mahogany wing body
- Jumbo frets
- Edge Pro bridge
- DiMarzio® IBZ-N (H) neck pu

# RGA basics

More and more heavy rock players told us they wanted more RGs with a fixed bridge. More is a word we understand.

- Thin, flat, and fast Prestige Wizard necks combine with the massive new Gibraltar Plus fixed bridge.
- The brilliant highs and looks of the RGA's arched 16mm maple top ensure that you'll be seen and heard no matter what.
- Crafted by Ibanez's most experienced luthiers using the finest materials and electronics available.

## RGA321F SPB

## RGA121 VLF

- 3pc Wizard neck *Prestige*
- Maple/Mahogany body
- Jumbo frets
- Gibraltar Plus bridge
- IBZ V7 (H) neck pu
- IBZ V8 (H) bridge pu
- color : NTF, VLF

RGA121 NTF

### Gibraltar Plus Bridge

You don't put just any fixed bridge on an instrument in the class of the RGA—a massive metal sound requires a massive metal bridge. The Gibraltar Plus combines the smooth surfaced Gibraltar III bridge with the Quik Change tailpiece-in one unit. Allows a wide range of intonation adjustment needed for heavy gauge strings and the saddles can't fall out during string changes.

### Arched Top

The brilliant highs and look of 16mm top guarantee that you are seen and heard in the back rows as well as the front.

- color : BP

**RG1570MRB/MRR**  
Exquisite mirage finish with a special "flip-flip" pattern.

**RG1570 MRB**

**USA-Made DiMarzio® IBZ pickups**  
Power that can cut through anything. When you must visit sonic destruction on every headbanger in the room, accept no substitutes.

# RG basics

Why do players who don't use a tremolo still use Ibanez double locking tremos? Because no matter how insane or brutal it gets-or you get-Ibanez locking systems will never let things get totally out of hand.

- For over 18 years, Ibanez RG guitars with Edge double locking systems have been the metal guitar for the working player.
- 24-fret, thin, flat and fast Wizard necks.
- RGT models feature neck thru construction for effortless upper fret access, huge tones and long sustain.
- RG300 models upgraded with U.S. designed Infinity III and IV pickups which feature more bite and chunk and adjustable pole pieces for balanced string output.
- New Edge III double-locking trem offers increased durability and stability. The original classic Edge feel but with a lower profile saddle for increased comfort.

- Figured Poplar top/ Mahogany body
- Jumbo frets
- ZR Tremolo bridge w/D-tuner
- DiMarzio® IBZ (H) neck pu
- DiMarzio® IBZ (S) mid pu
- DiMarzio® IBZ (H) bridge pu
- color : HS

**S2075FW DiMarzio IBZ Pickup**  
The S2075FW is equipped with high-powered, U.S.A.-made DiMarzio ibz pickups, specially designed for S Prestige Split-5 switching.

**D-Tuner on ZR tremolo**  
The ZR tremolo on the new S2075FW Prestige model features a D-tuner for quick changes to alternate tunings.

Fast, flat necks. Thin body. Fat mahogany tone. The S can and will do anything. That's why so many extreme metal players are picking up the S as their weapon of choice.

S520EX MGF

**Manually Adjustable Zero Point System**

Insures tuning stability by consistently returning the tremolo to the center point (or zero point). Can be quickly set by hand—there's no need for a hex wrench.

**S basics**

- An Ibanez original. One of the most versatile guitars ever made, with adherents in every genre.
- Thin around the edges for comfort. Thick around the neck, pickups and bridge for tone.
- Zero Resistance tremolo with ball-bearing combined with Zero Point System realizes almost sensual arm-ing, incomparable stability and quick return to pitch.

- DiMarzio® IBZ (H) bridge pu
- color : VV

**SA2020FM Set-In Neck**  
 SA set-in neck combines with Prestige finishing and a special neck finish for comfort and playability beyond description.

**SAT Pro Trem**  
 Features locking saddles for outstanding tuning ability and hard steel saddle chips for superior response and tone.

**SA2020FM DiMarzio PU**  
 The SA2020FM is equipped with U.S.A.-made DiMarzio IBZ pickups, specially designed for the SA Prestige.

# SA basics

- The comfort and warm mahogany tone of an S, but with a standard, flat back.
- 25.5 scale neck offers narrow feel and tight tension similar to an Ibanez RG.
- SA2020FM features specially designed DiMarzio/IBZ pickups with alnico magnet. Neck pickup provides good response, rich attack, rich harmonics and warm sound, and bridge pickup provides rich mids and low end. Powerful sound with clear sustain.
- SAT trem systems offer wide pitch spacing for better response. Only the front section of the 2pc saddle raises (the back section remains locked) for more stable intonation. The Pop-in trem arm is swing-tension adjustable.
- Affordable GSA models offer the same individual inspection and set-up as our most expensive models.

**SA32FM TL**  

- 3pc SA set-in neck
- Flamed Maple top/Mahogany body

- color : TKF

**SZ2020FM Machine Head**  
 SZ2020FM is equipped with Gotoh machine heads featuring the H.A.P. (Height Adjustable Post) system, which insures proper tension balance by adjusting the height of each string post.

**Gibraltar Custom Bridge**  
 The SZ2020FM's Gibraltar Custom Bridge allows for radical intonation adjustments and augments the already superior sustain of the SZ Prestige set-in neck and mahogany body.

**SZ2020FM with Seymour Duncan®/IBZ pickups**  
 U.S.A. made Seymour Duncan® IBZ pickups take the SZ design to another new level of warm, fat, and powerful tone in this Ibanez Prestige model. The neck pickup features an alnico magnet and offers warm, smooth tone with rich sustain. The bridge pickup features a ceramic magnet and provides very high output with aggressive harmonics and clear attack.

**SZ basics**

- A descendent of the curved, mahogany Ibanez S but with a much thicker body and a 25.1" scale that has a different feel than the S 25.5" scale.
- 3 pc set-in neck for better upper fret access and sustain.
- Graduated string post heights and thru-body stringing provide equalized string tension, precise articulation, and an all round great feel.
- Heavy-duty Gibraltar III bridge allows for heavier gauge strings and features no sharp edges.
- SZ Prestige model, the SZ2020FM is fitted with USA made Seymour Duncan® IBZ pickups and the massive Gibraltar Custom bridge for even better SZ tone and sustain.
- New affordable GSZ models offer SZ playability to even wider range of players.

The Jet Kings bring back the funky vibe of the past-without the bad tuning and with a lot more tonal versatility. The JTK1 is for players who want a lighter axe with a thinner neck. The JTK2 is for players who want a big mahogany body with a thicker neck.

Ibanez Artist guitars offer the full, meaty sound of the "other famous mahogany classic," but at a better price and with better hardware. 2005 Artists feature the original '70s body size and neck for that great '70s sound and feel.

The Iceman is one of the original Ibanez models. The IC400 features a set-in neck for that original Iceman feel. It also retains the original Iceman parallelogram inlays along with its unmistakable shape and chunky tone. For some, especially those that remember the Iceman of old, there is no substitute for this pure rock guitar.

# JS basics

- Multi-radius Prestige neck (JS1000/JS1200) is an exact digital rendering of the neck on Joe's favorite axe.
- Lightweight aero-foil shaped basswood body provides comfort, upper fret access and expressive singing tones.
- High pass filter on JS1000 and JS1200 volume pots maintains highs at low volumes.
- Combination of 25 1/2" inch neck scale and DiMarzio® or Ibanez Axis provides wide dynamic range and versatility.

"I wanted a guitar with a modern sound, but with a vintage feel, with smaller frets and more radius on the fingerboard. It had to be subtle enough to catch nuances, fast and easy to play." - Joe Satriani

### JEM555 WH

# JEM UV

## basics

- For 2005, Ibanez proudly opens a new chapter of the JEM epic, with the introduction of the mirror-finished JEM77BRMR, "Bad Horsie" JEM.
- Contoured basswood or alder bodies with 24-fret Prestige JEM neck provides easy access to all registers.
- Deep routed tremolo cavities allow pitches to be lowered or raised.
- Vai's choice of specific DiMarzio® pickups for each model and combined with Ibanez Split-5 wiring provide incredible tonal versatility.
- Steve Vai's Universe-the guitar that ignited 7-string revolution-allows almost effortless transition from 6- to 7-string techniques.

"Anywhere in the world, I can go into a music store, take a JEM off the wall, and it's my voice." - Steve Vai.

KORN

# K7 basics

- Ibanez has more experience with solid body 7-strings than any other guitar maker.
- DiMarzio® and Ibanez picks designed exclusively for 7-strings.
- The right bridge and nut spacing is why Ibanez 7-string guitar necks feel like guitar necks-not like bats. Transition from 6- to 7-string playing techniques is effortless.
- K-7 features A-D-G-C-F-A-D factory-tuning for Korn's signature low-end crunch.

# PGM basics

- 24-fret PGM Prestige neck is 2mm thicker than our super-thin Wizard necks.
- Fixed bridge offers increased sustain and simplicity.
- Paul's specific choice of different DiMarzio® pickups, HSH configuration and 5-way switching offers the multitude of tones required for his mastery of both speed and style.
- And, of course, Paul Gilbert's signature painted f-holes.

# AT basics

- Delivers the sonic variety needed by a player who is equal parts bluesmaster, ultra versatile sessionmeister and speed demon. (And he can chicken-pick.)
- Arched S-style top with traditional flat back.
- AT multi-radius neck offers incomparable playability and feel.
- DiMarzio® Cruiser DP186 single coil pickups with DiMarzio AT1 made specifically for Andy Timmons (an Ibanez exclusive).
- Sperzel® locking tuners and Wilkinson/Gotoh® VSVG Tremolo.

## GBbasics

- The GB10 debuted in Chicago on June 11, 1977. Our longest running artist signature model.
- Floating pickups, a thicker top and a smaller body reject feedback.
- Pure jazz tone even at rock and roll volumes
- GB200 features full-sized, full-acoustic body and standard pickup installation for more traditional jazz gigs.

*"The GB10's smaller body doesn't have a lot of resonance, but it has a lot of articulation. The notes don't melt together like on softer guitars. It maintains the tone while articulating each note. No other guitar gets that sound." - George Benson in Ibanez, the Untold Story.*

*"When Ibanez wanted to reintroduce my original AS200 guitar with the original specs they had to fly me to the Ibanez R&D facility in L.A., where detailed measurements were taken of every conceivable dimension. This became the basis for the JSM John Scofield Model, which reproduced the original guitar plus added some improvements such as a side-mounted jack." John Scofield from Ibanez. The Untold Story.*

## PM basics

- Like the artist himself, the PM models is able to play within and without the boundaries of traditional jazz.
- The size of the traditional jazz guitar but slimmer for better comfort, projection, and feedback rejection.
- Double cutaway and 17th fret body joint for easier upper fret access than completely traditional jazz boxes.
- The PM120 features an even slimmer body than the PM100 (2" vs 3") for enhanced midrange punch.

*"It took some time, several prototypes and perseverance from all corners, but the final results are excellent - I love playing all of the various Ibanez PM models and am quite proud to be associated with them." Pat Metheny from Ibanez - The Untold Story*

## JSM basics

- John's preference of Artist-style "castle" headstock to complement AS body for better tonal balance.
- Classic Ibanez half-brass, half-bone nut.
- Rigid top and body reject feedback.

john scofield

# ARTCORE CUSTOM

## AS models

- True full-hollow guitars with exquisite flame maple bodies for enhanced, clear highs, and the sound, appearance and craftsmanship of guitars many times their price.
- AF105 features traditional pickup installation for traditional jazz gigs. AF105F features floating pickup to eliminate feedback.

No one would have ever believed you if you had told them even just three years ago that you could have a decent full or semi-hollow guitar this little money. Certainly our competitors wouldn't have.

Then along came Artcore. We thought we'd give everyone a little time to handle that before we came up with the next surprise... Artcore Custom.

- One of the most versatile of the box guitars-actually one of the most versatile of any electric guitar-the semi-acoustic has been used in almost every genre of popular music including jazz, fusion, rock and roll, r&b and blues.
- Semi-acoustic guitars or semi-hollow guitars feature a block of wood known as a sustain block or sound block into which the pickups are mounted for increased sustain and elimination of feedback.

- AS73 BS**

## AM model

- An original Ibanez design which offers the basic shape and versatility of the traditional semi-acoustic in a comfortable compact size.
- Designed for rock, jazz, country, blues or r&b players who prefer not to stay in one place, musically or physically.
- Semi-acoustic guitars or semi-hollow guitars feature a block of wood known as a sustain block or sound block into which the pickups are mounted for increased sustain and elimination of feedback.

## AWD/AXD/FWD models

- The AXD82P offers the big, complex tones of a full-hollow in a small and simple single cutaway for blues (and more) with a feeling.
- The new arched-topped AWD82 model semi-acoustics provide the easy access of a double cutaway in a small body. The right and light medication for the hyperactive performer.
- If the above describes you but you prefer the feel or the even nicer price of a flat-topped axe, there's the FWD60.

Heavy tones. Light weight. With the addition of these all-new and different small full and semi-hollow models, there are now definitely "Boxes For All."

**Short Stop III**  
The Short Stop III bridge on the AWD82 provides superior playability with a smooth surface and easy string changing.

**ACT Tremolo**  
The first knife-edge tremolo designed for semi-acoustic guitar. The ACT eliminates the tremolo cavity on the back of the guitar—there's less space used so there's more tone. Shorter springs use less vibrating room and contribute to a stiffer arm response. Two ways to install the springs offer choice in string and arm tension. And on top of all that the ACT is smooth to the touch and string changes are easy.

# JUMPSTART packages

Four out of five doctors say that people who play music get more dates, have a lot more fun, and, when you get right down to it, are simply more cool than people who don't play.\*

Jumpstart bass and guitar packages have "Everything you need to plug in and play."™ So instead of spending time wondering what it would be like being up on stage, you could be looking out at the audience.

\*In entirely imaginary interviews conducted across the United States. But you know it's true. Plus actual studies do show that playing music makes you smarter. That tends to make life easier.

# BTB basics

A full-sized body crafted of premium woods. Passive pickups. Substantial neck. The BTB has all the features, quality, and sound (and great looks) of pricey boutique basses—at a cost the working player can afford. If you think really you have to mortgage the house or sell your furniture to get a good high-end bass, you owe it to yourself to try one of the BTB Prestige models.

- Designed for traditional pro-players who prefer tones produced more from the wood than the electronics.
- 35" neck scale provides superior articulation. Perfect for 5-strings and detuned 4-strings.
- 18-volt circuitry provides much greater headroom than found on standard active EQ's. (except BTB200/205)

 MARCUS ROBERTS TRIO

**terry butler**  
 GFT UNDER

**Neutrik® Jack**  
 BTB basses are traditional in style, but they're completely up-to-date with the most sophisticated high-tech features such as Neutrik® locking jacks and Ibanez Mono-Rail bridges. (except BTB200/205)

**BTB200/205 Phat II EQ**  
 The new BTB200/205 features the Phat II EQ bass boost for even fatter lows and heavier tone.

**Prestige Model Bartolini® Pickups**  
 Bartolini® pickups provide deep, warm tones while retaining treble emphasis. The Bartolini® active 3-band EQ features fully independent bass treble and mid controls and a mini switch for quick mid-frequency adjustments of 250Hz, 500Hz and 1kHz.

**Mono-Rail 4**  
 2005 SR Prestige basses are fitted with the new Mono-Rail 4 bridge. The fourth generation design features the same complete string-to-string isolation so each string vibrates true without interference from the others. However, the Mono-Rail 4 features a special saddle lock for maximized individual string isolation and vibration as well as even easier string changes.

**BTB Prestige with Neck-thru Construction**  
 The Maple/Walnut neck-thru construction provides easier access to upper frets and massive sustain.

# RD basics

Roadgear basses have established a class all their own: elite small-shop style and sound at prices for the common people.

- Single/Humbucking pickup configuration offers a wealth of tones and plenty of punch.
- Neck is thin in the lower frets like a Soundgear, but thicker towards the upper frets like a traditional bass for fatter tone.
- New RD900 flagship model with U.S.A. made Seymour Duncan® Bass lines™ pickups, massive milled brass bridge, and eq bypass switch.
- RD500 deluxe model offers the simplicity and power of the Ibanez 2-Band Active EQ.
- RD300 standard model features passive tone control and an even more affordable price. For 2005, matching headstock completes the Roadgear formula of pro features at beginner prices.
- Massive bridges provide strong sustain.

## RD900FM/905FM Body Construction

The Mahogany body coupled with a 15 mm thick flamed maple provide incredibly full tone with a wide range of overtones.

## USA-made Basslines™/Ibanez Pickups (RD900FM/905FM)

The new Basslines™/Ibanez pickups are created as a collaboration between Ibanez & Seymour Duncan®. Coupled with the right amp, these pickups produce a rainbow of tones, from vintage warmth to heavy metal grind.

## Solid Brass Bridge for RD900FM/905FM

A milled brass bridge creates a tight sound with long sustain. With the large amount of mass, this bridge can transfer the string vibrations to the body much more effectively.

## Duncan®/Ibanez Pickups (RD500/505)

The Duncan®/Ibanez pickups on RD500/505 offer a perfect mix of the clear single coil tone and a fatter humbucking sound.

VICTIMAS DEL MAINSTREAM

**marcus kössler**  
FANTA 4

**EDB basics**

Traditional looks. Radical everything else. The EDB's ergonomic Luthite body offers curved back for supreme comfort and a scooped out front for slapping and popping.

- Crafted of Luthite, a man-made material formulated specifically for electric stringed instruments.
- Ergonomic comfort and dynamic tone.
- Strong, slender two-octave maple neck offers fast and easy fretwork.
- Passive pickups and active EQs are specifically selected to enhance the resonant Luthite body material.

Can we give you one good reason to choose an Ibanez Artcore over some other semi-acoustic basses? No. But we can give you four. Better price. Better sustain. Better articulation. Better output.

**ARTCORE basics**

- Set-in necks offer superior sustain than the bolt-on neck models usually found in this price range.
- 34" scale neck for better articulation and sustain.
- Higher output pickups than most semi-acoustic basses

**AGB140 TBR**

- 3pcs AGB4 Mahogany/Maple neck
- Maple top/back/sides
- Medium frets
- Gibraltar III bass bridge (19mm String Spacing)
- Quik Change III bass tailpiece
- ACHB-1 pu
- depth: 43mm at tail
- color : TBR

**Gibraltar III Bass Bridge and Quik Change III**  
The combination of the Gibraltar III bass bridge with the Quik Change III tailpiece contributes to the great sustain of Artcore basses as well as providing easy string changes.

**GAXB basics**

We couldn't have made it any simpler. The no-fuss, no-frills Ibanez GAXB150 gets right down to the basics.

- 32" scale neck is perfect for students and players who prefer lower tension or a smaller neck.
- Ultra-simple controls: one volume and one 3-way tone switch.
- Double cutaway body offers easy upper fret access and traditional tones.
- Dual coil soapbar pickup offers quiet operation and plenty of punch.

**GAXB150 BK**

- GAXB4 neck
- Nato body
- Medium frets
- B10 bridge (19mm string spacing)
- Dual Coil soapbar neck pu
- 3 way tone character toggle switch
- color : BK

**Tone Character Switch**  
Just one volume and a 3-way tone switch on the GAXB150 make it easy for beginners to dial in the right tones.

## 4-string basics

Thin, fast necks. Versatile, powerful electronics. Slender bodies that fit you like a fine glove. And as music evolves so does Soundgear. That simple but unbeatable formula has made Soundgear the choice of players in every genre.

- Thinner necks with thinner nuts than traditional basses
- Sleek bodies that are lightweight, balanced and comfort-contoured
- Passive pickups perfectly matched with the right choice of passive or active electronics.
- GSR Soundgear basses, the world's best selling basses, provide the looks, tone and comfort-and the same rigorous set-up and inspection-of our most expensive basses.

### Mono-Rail 4

2005 SR Prestige basses are fitted with the new Mono-Rail 4 bridge. The fourth generation design features the same complete string-to-string isolation so each string vibrates true without interference from the others. However, the Mono-Rail 4 features a special saddle lock for maximized individual string isolation and vibration as well as even easier string changes.

### USA-Made Bartolini® Pickups

Prestige basses feature USA-made Bartolini® pickups designed specifically for Ibanez basses and the Ibanez Vari-Mid EQ, which features sweepable midrange for wide variations in tone.

## .5/6-string basics

Do trad-shaped 5 & 6 string bass necks feel more like baseball bats? Then the slim, strong and effortlessly easy-playing Soundgear neck is what you want to add more tones and less girth.

- Soundgear 5-string basses are fitted with the thinnest neck of any 5-string anywhere.
- SR 6-strings have the right spacing, and the pickups perfectly balance the different outputs of the low and high strings.

# SRX basics

Simply Loud. Soundgear's famous comfort and playability combine with no-frills simplicity and no-prisoners high-output.

- Super high output Passive Full Range pickups with exposed pole pieces redefine the meaning of loud.
- Simple-to-operate 2-band EQ or PHAT active bass boosts let you play more bass and less controls.
- SRX505 offers wide string pitch and neck width.

### Powerful Alnico Pickup

For players for whom cracking the earth's core is everyday stuff, the SRX400's ultra-powerful PFR-AL alnico pickup and the PHAT II active bass boost take loud and simple SRX concept to unimaginable extremes.

### Extreme Measures Taken

A powerful and simple bass requires a powerful and simple bridge. B100 bridge offers strong sustain, accurate intonation and stability, and simplicity of operation for easy adjustments and string changes.

**gary willis**  
TRIBAL TECH

# G.W.B

basics

- Gary Willis is the unchallenged name in 5-string fretless playing and 5-string fretless basses.
  - 2-band EQ with bypass switch (active/passive) on the GWB105 matches any kind of amplification.
  - Lightweight swamp ash body provides an extremely open sound.
  - Curved pickup provides separate coils for precise string balance.
  - Finger-rest/ramp designed by Gary Willis refines right hand technique and prevents players from digging into the strings ("the worst thing you can do on a fretless").
- Sure Grip tuning knobs inspired by Gary Willis allow fast restringing and precise fine-tuning even during the heat of a gig.

*"It has its own sounds, but it's also transparent; you get sounds out of your hands. When you can dial in an instrument to this level of performance, it's amazing." - Gary Willis*

**doug wimbish**  
LIVING COLOUR

# K5

basics

- Powerful ADX active pickups.
- Original Vari-Mid EQ sweepable midrange allow you to dial in or dial out any kind of bass sound (or as Fieldy says, "Take the midrange and turn that \$%#@ off!").
- Body of padauk and mahogany provides the tremendous low-end and sustain needed for Korn's brand of heavy rock.

*"I've played all kinds of basses. I've got other companies that want me to endorse, but I don't like any other basses. I'm not like some people who play an instrument because of a contract. I'm playing it because I love it." Fieldy in Ibanez - The Untold Story.*

### K5 OL

- 5pc K5 Wenge/Walnut neck
- Padauk top/Mahogany/Padauk back body
- Medium frets

# D.W.B

basics

- The wide range of tones needed by the first call N.Y. session artist who's played with everyone from Living Colour to the Rolling Stones.
- 5 pc maple/bubinga neck with rosewood fret board offers superior strength, tone and response.
- Neck-thru body with ash wings allows unlimited upper fret access.
- Hipshot® licensed tuners provide tuning stability combined with lighter weight for better neck/body balance.
- 2-band EQ customized for Doug Wimbish offers wide and rapid tone adjustments.
- EMG® 35P4 and 35J active pickups for DWB3 and EMG® 40J for DWB35.

*"I designed the DWB so I could get a wide and different range of sounds with ease both live and in the studio. One of the best 5-string basses Ibanez has ever made-and that says something!" - Doug Wimbish*

### DWB3 TO

 weight • 6.4 kg/6.5 kg

**MIDDLE PULL SHIFT**  
 The MID-SHIFT switch on the TB100H, TB100R and TB50R allows the player to scoop the midrange via the MIDDLE control, in two preset frequencies. This allows the player to go between two radically different sounds.

### BOOST SWITCH

The BOOST switch on TB100H, TB100R and TB50R is active on both the CLEAN and OVERDRIVE channels. In CLEAN channel, the sound shifts to a crunch type tone for a dirty rhythm tone when the BOOST switch is depressed. In the OVERDRIVE channel, the signal level becomes hotter when engaged, for soloing.

**DOUBLE CONE SPEAKER**  
 The TB15/TB15R are equipped with a double cone type speakers. These speakers generates a clear high end. In the CLEAN channel, this speaker adds a sparkling clean sound. For overdriven tones, a filter limits the amount the high end for a warmer tone.

# weeping demon

The most variable and controllable guitar wah you can get. The Weeping Demon's shrieks, cries, wails and seductive siren songs will have your audience screaming for more. The Weeping Demon features spring and normal footboard action, selectable wah range, fine tuning controls and more.

- (a) Mode Lever  
Change the mode between the Foot Switch or the Auto On-Off. In the Foot Switch mode, the foot switch is engaged to switch on and off effects.  
(a1) Auto Switch mode  
(a2) Foot Switch mode
- (b) Auto Off Delay  
Adjusts auto switching off time after pedal reaching at all the way up position in the Auto Switch mode.
- (c) Range Fine Tuning  
Adjusts the highest frequency when the pedal is depressed all the way down.
- (d) Spring Tension  
Adjusts tension of the pedal spring in the Auto Switch mode.
- (e) Pedal Friction  
Adjusts smoothness of the pedal action.

# classic COMPACT effects

## Tubescreamers

Our Tubescreamer reissues feature the same careful hand wiring and analog circuitry of the original classics. Both the TS9 reissue and TS9DX feature the TA75558 chip used in most of the original TS9's with the TS9DX adding three settings for increased low-end crunch. The reissue of the TS808, described as "the Holy Grail of Tubescreamers," features the warm tones of the JRC4558D chip used in most of the original TS808's.

## 9-Series Reissues

When it comes to compact effects, nine is the magic number. In 2004, we brought back CS9 Chorus and FL9 Flanger to much critical acclaim. For 2005, please welcome back the coveted AD9 Analog Delay. There are sound reasons why, twenty years after they were first made, you still see these effects in players' rigs. If you missed out on getting one of these classics the first time around, it's time.

# TONE-LOK effect pedals

On the outside, Tone-Lok effects are equipped with our exclusive "set and forget" Push-Lok rotary pots. Push the knobs down and your tone settings lock securely inside the case. No more lost settings or knobs broken. On the inside, Tone-Lok pedals feature hi-fidelity components carefully tweaked with the constant input from a new generation of Ibanez players. And all this great stuff comes encased in cool looking, road tough metal boxes at prices the working player can afford.

## PM7 Phase Modulator

If you've gone through one phase after another, maybe it's time for the final phase. The PM7 Phase Modulator offers three types of waveforms to give you everything from classic phaser to DJ effects to touchless, the PM7 also has three phase stages: vintage, deep and dry, and deep and pronounced. With some minor tweaking, the PM7 goes from traditional to 21st century and beyond.

## PH7 Phaser

Designed to emulate the effect of a rotating speaker, the PH7 has a switchable phase circuit capable of either four or eight stages of smooth phasing. With these two very different tonal modes, you can go from a subtle shimmer to all out 70's "Let's Get Funky" phasing.

## DS7 Distortion

The most versatile Ibanez distortion pedal ever, capable of producing a wide range of smooth, dynamic overdrive tones. From a subtle tonal nudge to wallowing rock n' roll crunch, the DS7 delivers days of sustain and gobs of gain.

## LF7 Lo Fi

The first dedicated filter pedal for the guitar, the LF7's voltage controlled analog high and low pass filters allow you to emulate transistor radio and megaphone type sounds. Best used at the end of a signal chain in combination with other pedals, this ticking time bomb creates wide soundscapes of far out tones that previously required a massive rack of analog electronics. The Lo Fi also performs equally well with vocals, drum machines or in any "mix-down" context.

## PD7 Phat-Hed Bass Overdrive

Why let guitarists rule the stage? Loaded with growling low-end distortion, the PD7 levels the playing field for the rock bassist. The PD7 is armed with three pre-amp style voicings and an attack control switch, which accents the amount of harmonic content in your sound. With DRIVE, LO, HI, and LEVEL knobs, dialing in a thunderous bass sound has never been easier.

## SB7 Synthesizer Bass

If you're looking for new tones or you're still smoldering with resentment against synth bass keyboard players, the SB7 is the ticket. You've got real time feel—in other words no annoying tracking errors and delays. You can even play chords.

## SH7 7th Heaven

Designed specifically for 7-string guitars with the input from some of Ibanez's hottest 7-string players, the SH7 Seventh Heaven distortion pedal accentuates the low-end girth of the 7-string while reducing unwanted string noise. A special mode switch allows you to choose between two different distortion voicings while LO, HI, Drive, and Level knobs give you total tone control. An absolute must-have effect for replicating the best 7-string sounds of others or creating your own individual tones.

## AW7 Autowah

There are autowahs. And there are autowahs. But the Tone-Lok AW7 isn't just any autowah. It's got standard wah where both the highs and lows are cut and it's got a wah setting where only the highs are cut. And it's got distortion. A notch filter provides the sound of a standard wah pedal left at one setting (a favorite wah pedal technique of Joe Satriani). You can even change the chain order of the effects to get different tones: either distortion to wah or wah to distortion.

## CF7 Chorus/Flanger

The CF7 creates shimmering soundscapes, whooshing jet plane sounds, and contemporary "Korny" chirps and blurs. The schizo "KRAZY" switch lets the CF7 be a conservative Dr. Jekyll with the "NORMAL" mode (classic chorus and flanger). Or you can turn the pedal into the proverbial Mr. Hyde... the "WHACKO" mode imitates the contemporary modulation sounds used by today's phattest rock bands. It's like getting four pedals in one.

## DE7 Delay/Echo

Add new dimensions to your sound with the DE7 Delay/Echo pedal. Get the best of both worlds: high tech digital sounds comparable to expensive rack units or warm vintage tape echo sounds—all with a simple flick of the switch. TIME, REPEAT and LEVEL controls help you dial in just the right amount of delay, while stereo outputs can be used for a more spacious sound. With a range of 30ms to 2.6 seconds, the DE7 is the only sound solution for every playing situation.

## TS7 Tubescreamer

The Tubescreamer isn't just a stomptone. It's an institution. Our latest generation Tubescreamer, the TS7, is no exception. With the Tubescreamer's classic subtle-but-smooth overdrive, the TS7 expands the expressiveness of your guitar while maintaining its tonal integrity. Tone adjustments are provided by the classic three knob configuration with an added "hot" switch for an extra gain boost.

## FZ7 Fuzz

Far out! A complete 60's flashback with none of the drawbacks, the FZ7 is the ultimate in psychedelic fuzz. With the FZ7's tone, drive, and level controls, it's never been easier to get the right retro tones. You can even engage the DAMAGE switch for that ratty, broken speaker sound. Yeah, baby, yeah! Dial in, tune up, drop down or whatever turns you on.

## SM7 Smash Box

The Smashbox is the most aggressive weapon in the Tone-Lok distortion arsenal. Armed with obscene amounts of gain, light low end, and searing highs, the Smashbox is THE heavy rock sound for the contemporary guitarist.

# GUITAR ACCESSORIES

## Picks

PICK PACK STAND

Ibanez offers picks for just about every type of player with different feels, functions and looks. Function wise, the Grip Wizard series feature sand or rubber grips for superior gripping ability. Look wise, Ibanez offers a selection of original metallic colors and other unique colors and designs. And then there is the signature line of picks that are exactly what the artists use in most cases. In fact, Steve Vai won't use anything but his signature Ibanez picks. For details of the lineup, visit our website: [www.ibanez.com](http://www.ibanez.com).

## Cables

### SERIES 96

Premium grade specs for Music and Sound professional

- 96 Micro-Strands of Silver plated copper core wires offer low impedance and maximum signal transfer.
- Extra flexible PVC wrapped outer jacket for superior reliability and micro phonic noise rejection.
- Eight-wire braids(each with 12strands) form the copper micro fiber shield which provides 97% shielding coverage. This copper braided shield rejects both electromagnetic and radio frequency interference for superior signal integrity.
- Heavy-duty machined Nickel-Chrome -Plated Brass plugs with Gold-Plated Tips and sleeve-end contacts for corrosion resistance.
- Velcro Strap with Ibanez Logo equipped.

NSC6 Guitar/Instrument Cable  
Jack type: Straight, Length: 1.83m (6ft)

NSC6L Guitar/Instrument Cable  
Jack type: Straight & Angled, Length: 1.83m (6ft)

NSC10 Guitar/Instrument Cable  
Jack type: Straight, Length: 3.05m (10ft)

NSC10L Guitar/Instrument Cable  
Jack type: Straight & Angled, Length: 3.05m (10ft)

NSC15 Guitar/Instrument Cable  
Jack type: Straight, Length: 4.58m (15ft)

NSC15L Guitar/Instrument Cable  
Jack type: Straight & Angled, Length: 4.58m (15ft)

NSC20 Guitar/Instrument Cable  
Jack type: Straight, Length: 6.10m (20ft)

NSC20L Guitar/Instrument Cable  
Jack type: Straight & Angled, Length: 6.10m (20ft)

### SERIES DS Basic grade specs for Music and Sound professional

- Coaxial - type shielded cable
- Aluminum foil shield under braided shield provides 100% shielding coverage and greater durability.
- Extra- flexible PVC-wrapped outer jacket and Heavy-Duty plugs.
- Velcro Strap with Ibanez Logo equipped.

## DC Cord and Adapters

### DC3&DC5

Splitter cords for powering 3 of 5 pedals from one adapter.

### AC109

Standard 9-volt 200mA regulated adapter for Ibanez compact effects.

### AC509

Standard 9-volt 500mA regulated adapter for Ibanez compact effects.

## tuners

### GU20

Ibanez auto guitar/bass tuner.  
Manual and automatic tuning.

### CU20

Ibanez chromatic tuner.  
Manual and automatic tuning.

### LU10

With the extra-wide LED display, superior visibility is guaranteed. With its easy view display, you'll never use another tuner on stage.

### MU30

You need the tuner and a metronome? Well save money and space on your pedal board by picking up the dual-function MU30. With the MU30, you get a high quality chromatic tuner and a metronome for the price of a typical tuner.

# PICKUP CHARACTER

MODEL NO.	NAME	REVERSE POSITION CONSTRUCTION	NECK POSITION	MAGNET	DESCRIPTION KEY RECOMMENDED POSITION: (H) BRIDGE, (M) MIDDLE, (N) NECK (S) SINGLE COIL (P) PASSIVE (A) ALnico, (C) CERAMIC	
<b>IBANEZ GUITAR PICKUPS</b>						
ACH1	ARTCORE 1	N	H	C	Clear sounding with a slight overtone.	
ACH2	ARTCORE 2	B	H	C	Bridge version of ACH1.	
ACH1-5	ARTCORE OPEN H1	N	H	C	Light tone with added treble.	
ACH2-5	ARTCORE OPEN H2	B	H	C	Bridge version of ACH1-5.	
AH1	AXIS HUMBUCKER 1	N	H	C	Very responsive and full sounding, medium output with lots of character. Excellent for distortion.	
AH2	AXIS HUMBUCKER 2	B	H	AL	Full bass sound. Alnico-5 magnet provides excellent clarity in harmonics and enhanced notes.	
AH3	AXIS HUMBUCKER 3	N	H	C	Responsive full sounding pickup with added output.	
AH4	AXIS HUMBUCKER 4	N	H	C	Increased treble response with added output.	
AH7-1	AXIS HUMBUCKER 7-1	N	H	C	Severing version of AH1 pickup.	
AH7-2	AXIS HUMBUCKER 7-2	B	H	C	Severing version of AH2 pickup.	
AS2	AXIS SINGLE 2	M	N	S	Traditional sounding single coil pickup with increased output.	
CUSTOM-F	CUSTOM-F	N	H	C	Floating pickup designed for AF15F.	
GB SPECIAL	GB SPECIAL	B	H	AL	Floating pickup redesigned by George Benson for hollow bodies at higher volumes. Warm, well rounded output with less feedback.	
GB SPECIAL	GB SPECIAL	N	H	AL	Neck version of above.	
G104	G104	M	N	S	Single spaced humbucking pickup. Single-coil clarity with louder output.	
G109	G109	B	H	AL	Warm tone with rich sustain.	
INF1	INFINITY 1	N	H	C	Versatile and responsive with warm classic tone and added output.	
INF2	INFINITY 2	B	H	AL	Enhanced midrange output. Alnico-5 magnet for individual string duty. Excellent dynamics.	
INF3	INFINITY 3	N	H	C	Provides the dynamic sound for chording and rhythm.	
INF4	INFINITY 4	B	H	AL	Balanced lead pickup. Warm sounding with good harmonics.	
INF51	INFINITY SINGLE 1	M	S	AL	Warm single coil tone with added output.	
INF53	INFINITY SINGLE 3	M	S	AL	Traditional sounding high output. Designed to work with humbuckers in the split position.	
PSND1	POWERSOUND 1	N	H	C	High output in the neck position with a "smoother" tone.	
PSND5	POWERSOUND SINGLE	M	N	S	High output with complete clarity.	
PSND2	POWERSOUND 2	B	H	C	High output with enhanced harmonics.	
S1	SINGLE 1	M	N	S	Traditional sounding, but high output single coil with Alnico-5 polepieces for even string output. Designed to work with humbuckers in the split position.	
S58	SUPER 58	A11	H	AL	Classic, warm and versatile. Handles both jazz and rock without feedback.	
SLS8	SILENT 58	A11	H	AL	Classic, warm and versatile. Handles both jazz and rock without feedback.	
V7	VINTAGE 7	N	H	C	Light, but bright. Very dynamic for chording and rhythm.	
V8	VINTAGE 8	B	H	AL	Warm and articulate lead pickup with enhanced overtones. Good harmonics without excessive feedback.	
V77	VINTAGE 77	N	H	C	Severing version of V7 pickup.	
V87	VINTAGE 87	B	H	C	Severing version of V8 pickup.	
<b>IBANEZ BASS PICKUPS</b>						
ACHB-1	ARTCORE	B	N	H/P	C	High output humbucking pickup.
ADXS	ACTIVE DYNAMIX S	B	N	A/C	C	Sharp, dynamic, punchy sound on all 5 strings. Two different sized bobbins provide even string output. Individually calibrated for neck and bridge positions. Two different sized bobbins provide even string output. Full range, precise bass sound with plenty of punch.
DX4	DYNAMIX 4	B	N	H/P	C	5-strings version of DXA.
DXS	DYNAMIX S	B	N	H/P	C	Designed to be used with or without an eq system for more punch.
DXP	DYNAMIX P	B	N	H/P	C	Designed to be used with or without an eq system for high-end.
DXS	DYNAMIX S	B	N	H/P	C	Designed to be used with or without an eq system for high-end.
PSNDJ	POWERSOUND J	B	N	H/P	C	High output with added legs.
PSNDM	POWERSOUND M	B	N	H/P	C	High output humbucking pickup.
PSNDP	POWERSOUND P	B	N	H/P	C	High output with plenty of punch.
DFR-4	DYNAMIX FULL RANGE	B	N	H/P	C	Medium output passive pickup with quick attack and superior dynamics.
DFR-5	DYNAMIX FULL RANGE	B	N	H/P	C	5-strings version of DFR4 pickup.
DXH-M	ERGO-DYNAMIX	B	N	H/P	C	Powered with good midrange punch. Designed specifically to work with the Lathin body instead of Epiphone basses.
PFR-AL4	PASSIVE FULL RANGE	B	N	H/P	AL	Powered Alnico magnet pickup with exceptional clarity and very even response.
PFR-4	PASSIVE FULL RANGE	B	N	H/P	C	Powered full range pickup with added low ends.
PFR-5	PASSIVE FULL RANGE	B	N	H/P	C	Powered full range pickup with added low ends.
SFR-GW	SONIC FULL RANGE	B	N	H/P	C	Custom sound for GWB35. Quick attack, superior dynamics and added legs.
DCL54	DUAL COIL SOAP BAR	B	N	H/P	C	Powered wide range tone.

MODEL NO.	NAME	REVERSE POSITION CONSTRUCTION	NECK POSITION	MAGNET	DESCRIPTION KEY RECOMMENDED POSITION: (H) BRIDGE, (M) MIDDLE, (N) NECK (S) SINGLE COIL (P) PASSIVE (A) ALnico, (C) CERAMIC	
<b>BARTOLINI® BASS PICKUPS (INDIVIDUAL BARTOLINI PICKUPS ARE NOT SOLD BY IBANEZ)</b>						
GBW	BARTOLINI WILLIS	B	N	H/P	C	Features separate coils for each string to allow more precise string-to-string response. (for GBW15)
SR BASS	BARTOLINI CUSTOM	B	N	H/P	C	Handwound passive vintage pickup. Excellent clarity with well balanced tone response.
BTB BASS	BARTOLINI CUSTOM	B	N	H/P	C	Handwound passive vintage pickup especially designed for 35 inch scale BTB basses. Features of low end, warm and deep stringing.
MK1	MK1	B	N	H/P	C	Well balanced tone.
<b>DIMARZIO® GUITAR PICKUPS (INDIVIDUAL DIMARZIO PICKUPS ARE NOT SOLD BY IBANEZ)</b>						
DP151	PAF-FRO®	B	N	H	AL	Classic humbucking sound with added presence, output and clarity.
DP153	FRED®	B	H	AL	C	Strong mid and a wide range of harmonics and overtones. Designed for Joe Satriani.
DP158	EVOLUTION®	N	H	C	C	Calibrated to DP158, for punch and lead. Designed for Steve Vai.
DP759	PAF-7™	B	N	H	C	Diverts PAF 7 A characteristics, lower-output pickup that performs like the classic humbucker of the late '50s.
DP213	PAF-JOE	N	H	AL	C	Wide humbucking sound with blended clear low end and warm mid/high.
DPS1	EVOLUTION®	N	S	C	C	Bright, clean tone.
DP159	EVOLUTION®	B	S	C	C	Light, aggressive and louder. Wide range of overtones.
DP700	BLAZE™ II	N	H	C	C	Medium power, warm, clean tone.
DP701	BLAZE™ II	M	S	C	C	Bright, clean tone.
DP702	BLAZE™ II	B	H	C	C	High power, punchy bass and treble, clean ends.
DP165	BREED™	N	H	AL	C	Designed for Steve Vai. Classic S1's smooth and flat humbucking tone. Higher than a PAF-FRO, but not as hot as an Evolution.
N/A	BREED™	M	S	AL	C	Bright, clean tone.
N/A	JEAN SINGLE	M	S	AL	C	SR exclusive. Classic single coil tone. Calibrated for perfect balance with fixed humbuckers.
DP166	BREED™	B	H	AL	C	Bridge version of the DP165.
DP187	CRUISER®	N	N	H	C	Single spaced humbucking pickup. Clean and bright, without noise.
N/A	AT CUSTOM (H)	B	H	AL	C	All exclusions. Vintage, warm humbucker tone.
N/A	DIMARZIO BZ (H) for RB	B	N	H	C	Historically clear with medium output.
N/A	DIMARZIO BZ (S) for RB	M	S	C	C	Warm tone and blends well with humbuckers.
N/A	DIMARZIO BZ (H) for SA	N	H	AL	C	Responsive, warm and fat sound with rich harmonics and overtones.
N/A	DIMARZIO BZ (S) for SA	B	H	AL	C	Provides expanded range of tone and powerful sound with clear sustain.
N/A	DIMARZIO BZ (S) for S	N	H	C	C	Powerful sounding with quick response.
N/A	DIMARZIO BZ (H) for S	B	H	AL	C	Bridge version of above. Enhanced harmonics and overtones.
N/A	DIMARZIO BZ (S) for S	M	S	AL	C	Well balanced sound with clear tone.
<b>Seymour Duncan® GUITAR PICKUPS (INDIVIDUAL Seymour Duncan® PICKUPS ARE NOT SOLD BY IBANEZ)</b>						
N/A	Seymour Duncan/ibz	N	H	AL	C	Warm and smooth tone with superior sustain.
N/A	Seymour Duncan/ibz	B	H	C	C	Provides for hot clear sound with aggressive harmonics.
N/A	Duncan Ibanez	N	H	AL	C	Warm sound and rich sustain.
N/A	Duncan Ibanez	B	H	C	C	Powerful sound with quick attack.
<b>Seymour Duncan® BASSLINES™ PICKUPS (INDIVIDUAL Seymour Duncan® PICKUPS ARE NOT SOLD BY IBANEZ)</b>						
N/A	BASSLINES™ Ibanez	B	N	H/P	AL	High output with lots of clarity and high-end punch.
N/A	BASSLINES™ Ibanez	B	N	H/P	C	Mild tone with rich midrange and added treble.
N/A	Duncan Ibanez	N	H	P	C	Powerful pickup, enhanced high-end.
N/A	Duncan Ibanez	B	N	H/P	AL	Warm sound, added medium power.
<b>EMG® BASS PICKUPS (INDIVIDUAL EMG PICKUPS ARE NOT SOLD BY IBANEZ)</b>						
EMG-35P4	EMG®	N	H	P	C	Hot coil basses with offset coils that give us sound more low end and with brilliant highs.
