

# TOMORROW'S NAME IN GUITARS

## Ibanez

What makes one guitar company different from the next? At Ibanez, we like to think that our dedication to the instrument sets us apart from the rest. Ibanez guitars are conceived, designed and brought to you by people who are active musicians like yourself. If there's a secret to our success, it's in our guitars - we hope you like what you see.

### The ARTIST SERIES

Ibanez Artist Series guitars are becoming a classic in their own time. In the few short years they have been available, guitars everywhere are recognizing them as the epitome of straight-ahead funkiness. From the simplicity of the 2610 to the new Artist EQ, the Artist Series offers you the best in traditional and state-of-the-art features.

### Studio Series

Simplicity of design and quality of performance - that's the Ibanez Studio Series. (Huh? Well, it's certainly the functional excellence of these guitars that do the talking for themselves. Now, high output V-2 pickups, the braided Ibanez Gibraltar Bridge and Quick-Change Tailpiece are but a few of the features of the newly crafted long-necked (25 1/2") bodies.

The selling restriction of the Artist Series dictated a rethinking of nearly all the components of the electric guitar, from the bridge to the pickups to the nut-line itself, each part was designed to perform to the utmost. These new and unique instruments epitomize the Ibanez philosophy of bringing you the latest features and highest quality at the most reasonable cost.

# Ibanez Electric Guitars

## Concert Series

The beauty, durability and solid feel of a carved solid maple top is the outstanding attraction of the Concert Series. The carved top is mounted onto a solid mahogany body for a tone that is bright, yet warm. The bright and punchy Super III pickups help make the Concert Series among the most distinctive sounding guitars on the market.

## Iceman Series

The Iceman is rock and roll—just ask Paul Stanley or Steve Miller. It was designed with sustain, light weight, balance and stage presence in mind.

## Performer Series

The Performers incorporate the most asked for features in a quality guitar at reasonable cost. There's no reason to sacrifice just because you're budget conscious.

## Roadster Series

The all-new Ibanez Roadster Series electric guitars are a step ahead of all other guitars of similar design and construction in virtually all respects. Many details and design features make the Roadster the most advanced high-performance guitar of its type. The new Super 6 and Super-Tap 6 pickups re-define the single coil pickups.

## FA-SA Series

Ibanez acoustic-electric models carry on the tradition of the great guitars of the past, but incorporate many new features to make them more suitable for today's musician.

## Musician Series Bases

## Roadster Series Bases

Each TR neck is topped by crisscrossing steel rods, tuned to a specific frequency into the neck, under the fingerboard. The result is nothing short of amazing. The Ibanez TR Tuned Response neck is found on both the Musician Series and Roadster Series Bases. Each TR neck is topped by crisscrossing steel rods, tuned to a specific frequency into the neck, under the fingerboard. The result is nothing short of amazing.
