Johnny Marr Jaguar®

New

Olympic White

Fender is very proud to introduce the Johnny Marr signature Jaguar® guitar. Marr is best known, of course, as the strikingly dynamic and influential anti-hero guitarist-arranger-all-around-musical-wunderkind behind Manchester quartet the Smiths, which virtually redefined and ruled U.K. pop throughout the 1980s. A master of melody, layering and texture, Marr has always brought his own instantly identifiable ringing, jangling genius to the proceedings, as he has done in post-Smiths stints with The The, Electronic, the Pretenders and Johnny Marr and the Healers, and right up to the present with Modest Mouse, the Cribs and innumerable guest appearances.

The Johnny Marr signature Jaguar is a fantastically non-standard version of the model that is as distinctive as the sounds Marr wrings from it, with a wealth of highly specialized features including custom-wound Bare Knuckle® Johnny Marr single-coil neck and bridge pickups; custom-shaped maple neck based on Marr's 1965 Jaguar, with vintage-style truss rod, lacquer finish and Marr's signature on the front of the headstock; four-position blade-style pickup switch mounted to the lower-horn chrome plate (bridge, bridge and neck in parallel, neck, bridge and neck in series); two upper-horn slide switches (universal bright and pickup switch position four bright); Jaguar bridge with Mustang® saddles, nylon bridge post inserts for improved stability, chrome cover and vintage-style floating tremolo tailpiece; and "taller" tremolo arm with arm-sleeve nylon insert to prevent arm swing.

Part #	Description	MSRP
0116400705	Johnny Marr Jaguar®, Rosewood Fingerboard, Olympic White	\$2,419.99
0116400750	Johnny Marr Jaguar®, Rosewood Fingerboard, Metallic KO	\$2,419.99

Kurt Cobain Jaguar®

3-Color Sunburst

One of Fender's® most distinctive signature models ever is the Kurt Cobain Jaguar®-meticulously modeled on the battered and highly unusual 1965 Jaguar that Cobain wielded during the heady early-'90s era when Nirvana ruled rock and led a musically stunning and culturally subversive movement.

Fender craftsmen have reproduced Cobain's battle-hardened left handed Jaguar down to the last unusual detail, including its worn finish, dual humbucking pickups and unique electronics and controls (which were already in place when Kurt acquired the guitar in summer 1991).

Unique features include an alder body with Road Worn aged finish and hardware treatment, bound fretboard with pearloid dot markers, Stratocaster headstock shape with 1950s-style "spaghetti" logo, DiMarzio® humbucking DP103 PAF 36th Anniversary neck pickup and DP100 Super Distortion bridge pickup, triple knurled "chrome-dome" knob configuration (volume-volume-tone), three-position toggle switch, black chrome Adjusto-Matic™ bridge and Gotoh® sealed tuners. Available in right- and left handed versions.

Accessories include a black textured vinyl hard-shell case and an exclusive Fender Kurt Cobain book with photos and commentary by Charles Peterson and an insightful interview with Nirvana guitar tech Earnie Bailey.

Part #	Description	MSRP
0143000700	Kurt Cobain Jaguar®, Rosewood Fingerboard, 3-Color Sunburst	\$1,819.99

Kurt Cobain Mustang®

New

Dark Lake Placid Blue with Stripe

When Kurt Cobain hit the stage, it was very often with a Mustang® guitar—an enigmatic anti-hero figure with an esoteric anti-hero instrument. It's with great pride then that Fender introduces the Kurt Cobain Mustang, which evokes the man, the band, the sound and the times, and gives an authentically crafted nod to one of the most unlikely guitars to ever find itself at the center of a musical maelstrom.

Kurt Cobain liked Mustangs a lot. For one, he preferred offbeat guitars that didn't cost zillions of dollars, and the Mustang certainly fit those two criteria. Also, being somewhat physically diminutive himself, he liked to perform live with slightly more diminutive guitars, like Fender Mustangs and Jaguars, which better fit his hands and his reach.

Inspired by his arsenal of modded guitars, the new Fender Kurt Cobain Mustang takes you back there, with highly distinctive features including an angled single-coil Mustang neck pickup and ferocious Seymour Duncan® JB humbucking bridge pickup mounted directly to the body, dual on-off/phase in-out switches for each pickup, a polyester-finished alder body and an Adjusto-Matic™ bridge with dynamic vibrato tailpiece.

Select instruments for select individuals. Introducing Fender Select series guitars and basses—true players' instruments that put more than six decades of Fender experience and expertise on outstandingly appointed display and bring a wealth of high-end features and elegant design options to discerning musicians everywhere. With choice tone woods, figured tops, strikingly beautiful finishes, figured and quartersawn maple necks with compound-radius fretboards, specially voiced Fender Select pickups that deliver masterful tone, and other first-rate features, the U.S.-made Select Series puts Fender's top-line best in capable hands—yours.

The Fender Select Carved Maple Top Telecaster is an elegantly crafted and sonically superior take on our first legendary guitar model, with a stunning Amber gloss-lacquer finish on a lightweight empress body with a carved flame maple top. Its modern "C" shaped flame maple neck has a Bi-Flex™ truss rod system for rock-solid stability, a satin lacquer back finish and rear-headstock "Fender Select" medallion. The smooth-playing compound radius flame maple fretboard (9.5"-14") has 22 medium jumbo frets, stylish black pearloid position inlays and a gloss lacquer finish. Crisp, clear signature sound comes from Fender Select Telecaster single-coil neck and bridge pickups with three-way switching and a no-load tone control that delivers the natural uncolored sound of the bridge pickup when dimed.

50th Anniversary Jaguar®

Burgundy Mist Metallic

66

Our 50th Anniversary Jaguar guitar takes you back to 1962, when Fender introduced an unusual new guitar that paired the sleek Jazzmaster® body style and elaborate control layout with a shorter scale and smaller, brighter pickups with more output. The resulting Jaguar was the fourth and last of Fender's original lineup of standard electric guitars.

The Jaguar gradually acquired a fascinating pedigree quite unlike that of any other Fender guitar. A chromed-out, surf-rock staple of the 1960s, it found new life from the mid-1970s-on as a subversively offbeat alternative axe wielded by punk, post-punk, grunge and alt-indie guitar heroes and anti-heroes alike. The same guitar that originally crested waves of reverberated singles by groups such as the Chantays and the Surfaris later fueled, for example, the dynamic grunge maelstrom of Nirvana, the translucent shoe-gazing dream pop of My Bloody Valentine and the literately artful alt-rock of the Pixies, the Flaming Lips and many others.

Highly distinctive features include the classic 24" scale length, a new one-degree neck-angle-pocket cut that improves pitch, a re-positioned tremolo plate that increases bridge break angle and sustain, and specially designed hot Jaguar single-coil neck and bridge pickups that deliver fatter tone and more output (once again framed by the model's classic notched metal "claws"; a hum-reducing innovation only found on the Jaguar).

American Vintage '69 Telecaster® Thinline

Olympic White

Fender's American Vintage '69 Telecaster Thinline guitar authentically captures one of the most experimental evolutionary steps in the long and colorful history of the Telecaster. In 1969, the hollowed-out and lightweight Thinline was the first of three major Telecaster design revisions of the late-'60s/early-'70s era, and players prized it for its own distinctive tone.

The American Vintage '69 Telecaster Thinline features period correct late-'60s details such as a "top hat" pickup switch tip and vintage-style "F" tuners. Other features include a semi-hollow mahogany body with f hole and gloss lacquer finish; C-shape maple neck with gloss lacquer finish, standard four-bolt neck plate and vintage-style truss rod system; maple fingerboard with 7.25" radius and 21 vintage-style frets; American Vintage Telecaster single-coil neck and bridge pickups with three-position switching; four-ply white pearloid pickguard; vintage-style three-saddle strings-through-body Telecaster bridge; knurled chrome knobs and chrome hardware. Accessories include black Tolex case, polish cloth, 8' cable, strap, bridge cover and six-saddle replacement bridge. Available in Olympic White and Two-color Sunburst.

American Standard Stratocaster® HSS

Sienna Sunburst

Among the American Standard Stratocaster® guitars, the HSS model is the hot rod of the bunch, with more output and warmth from its Tex Mex™ single-coil pickups and Diamondback™ humbucking pickup. The S-1™ switch is removed to keep it simple, but don't worry - we kept key features such as the hand-rolled fingerboard edges and staggered tuning machines, and we added several features, including an improved bridge with bent-steel saddles and a copper-infused high-mass block for increased resonance and sustain. Other features include tinted neck, high-gloss maple or rosewood fingerboard, satin-finished neck back, thinner finish undercoat that lets the body breathe and improves resonance, and Fender-exclusive SKB® molded case.

Road Worn®

Road Worn® '50s Stratocaster®

3-Color Sunburst

Few things in this world have gotten cooler with age than the Stratocaster® guitar. Born in the '50s, they became even cooler after years of use (and abuse) on the road; morphing over time to look appealingly battered and feel even better than when they were brand-new. Fender's maple-fretboard Road Worn® '50s Stratocaster delivers that aged look and feel - built to look, sound and feel like it has more than just a few miles on it. Designed with 1950s specs, including a nitrocellulose-lacquer finish, and supercharged with Tex-Mex™ pickups and 6105 frets.

Road Worn® '60s Stratocaster®

3-Color Sunburst

The Stratocaster® really came into its own in the 1960s, with players coaxing unbelievable sounds from it amid punishing stage shows and grueling tours. Beaten, bruised and even burned, they only got better as the years wore on - looking even cooler and feeling even more comfortable. Fender's rosewood-fretboard Road Worn® '60s Stratocaster delivers that aged look and feel - built to look, sound and feel like it has more than just a few miles on it. Designed with 1960s specs, including a nitrocellulose-lacquer finish and 6105 frets, and supercharged with Tex-Mex™ pickups.

Road Worn® '50s Telecaster®

Blonde

The first Fender workhorse; the original road warrior guitar. Fender's long road begins with the Telecaster®, a guitar that amazingly looked even cooler and handled even better the more players heaped wear-and-tear on it - great when brand-but positively phenomenal with a few thousand miles on it. Fender's maple-fretboard Road Worn® '50s Telecaster delivers that aged look and feel - built to look, sound and feel like it has survived half a century, designed with 1950s specs, including a nitrocellulose-lacquer finish, and supercharged with Tex-Mex™ pickups and 6105 frets.

Pawn Shop Series

Pawn Shop Fender® '51

Blonde

The Pawn Shop Series guitars draw inspiration from the eccentric and sometimes wildly innovative Fender creations of the mid-'60s and mid-'70s era that sometimes found their way to the outside world and into the more esoteric pages of Fender history. With this adventurous spirit in mind, Pawn Shop Series instruments emerge as all-Fender guitars with a boldly creative alchemy of diverse Fender components. And while they are brand-members of the Fender family crafted with thoroughly modern sound and quality, Pawn Shop Series instruments now take the stage with a remarkable identity as "guitars that never were but should have been."

The Pawn Shop Fender '51 has a Stratocaster® body and a "C"-shaped Telecaster® neck, with a single-coil Texas Special™ neck pickup, Fender Enforcer™ humbucking bridge pickup and a dual-knob chrome control plate. Other features include a maple fretboard with modern 9.5" radius and medium jumbo frets, master volume control with push-pull coil split, three-position rotary pickup selector knob, '70s-style hard-tail Stratocaster bridge, vintage-style tuners and strap buttons, and deluxe gig bag.

Classic Series '69 Telecaster® Thinline

3-Color Sunburst

The semi-hollow body design of 1968's Telecaster® Thinline guitar was originally an attempt to reduce the weight of ash-body Telecasters. With its f hole and re-shaped pickguard, it was a truly distinctive take on Fender's first great instrument. The Classic Series '69 Telecaster Thinline brings it all back, with features including a lightweight semi-hollow mahogany body with f hole, U-shaped maple neck with 7.25"-radius maple fretboard, vintage-style single-coil Telecaster pickups and vintage-style bridge and tuners.

Modern Player

Modern Player Telecaster® Thinline Deluxe

Black Transparent

Throughout its history, Fender® has always made a special point of welcoming new players to the family by offering entry-level instruments of remarkable style and substance (such as the Duo-Sonic™, Mustang® and Musicmaster® models), with great sound, classic looks, solid performance and eminent affordability. The Modern Player series continues that great my-first-Fender tradition, with thoroughly modern features and several distinctively unconventional new takes on our most revered instruments—all with outstandingly attainable value.

The Modern Player Telecaster® Thinline Deluxe casts an already distinctive classic Telecaster model in a whole new light with a full-throated pair of single-coil Modern Player MP-90 pickups. Other features include a mahogany body, C-shaped maple neck, maple fretboard with 9.5" radius and 22 medium jumbo frets, three-way toggle pickup switching, three-ply pickguard (parchment on Sunburst model; black-white-black on other models), four skirted amp knobs (two volume, two tone), vintage-style Stratocaster® string-through-body six-saddle hard-tail bridge, vintage-style tuners and nickel/chrome hardware. Mark Hoppus Jazz Bass®

Surf Green

Fender's Mark Hoppus Jazz Bass guitar is the perfect punk-pop bass-as powerful and addictive as a blink-182 hit. Distinctive since its 2002 introduction as a Jazz Bass with a split single-coil Precision Bass® pickup, it now has a new sonic formula. For the updated version of his signature model, Mark has reversed the pickup, with the upper half now on the treble side, delivering supercharged throat and fullness from the D and G strings; and the lower half now on the bass side, adding focused snap and brightness to the E and A strings. A unique modification for nonconformists.

Features include an ash body, maple neck with modern "C" shape and 1.625" nut width (wider than the 1.5" standard for Jazz basses), rosewood fretboard with 9.5" radius and medium jumbo frets, reversed Seymour Duncan® Basslines SPB-3 Quarter Pound split-coil Precision Bass pickup, single chrome control knob (volume), combination string-through-body bridge with American series plate and Standard series saddles and screws, and one-piece Jazz Bass pickguard (four-ply white pearloid on Surf Green model, four-ply tortoise shell on White Blonde model). Road Worn®

Road Worn® '50s Precision Bass®

2-Color Sunburst

The original was born in the '50s and produced the sound of bass. On the road, the more you punished a Precision Bass® guitar, the more it gave back as a virtually indestructible bass that took a beating and laughed while it asked for more, becoming even cooler looking and more comfortable-feeling than when it was brand-new. Fender's Road Worn® '50s Precision Bass delivers that aged look and feel. Designed with '50s specs, including a nitrocellulose-lacquer finish, and built to look, sound and feel like it's got more than just a few miles on it.

Road Worn® '60s Jazz Bass®

3-Color Sunburst

A veritable racecar of a bass, the Jazz Bass® guitar was born in the '60s and became the favorite of players who put as many miles on the instrument as they did on their tour buses. The more it was used (and abused), the more it growled back and became even more comfortable. Fender's Road Worn® '60s Jazz Bass guitar delivers that aged look and feel. Designed with '60s specs, including a nitrocellulose-lacquer finish, and built to look, sound and feel like it's got more than just a few miles on it.

'60s Jazz Bass®

3-Color Sunburst

Our '60s Jazz Bass® captures the essence of the decade - an instrument as tuneful and groundbreaking as the era it debuted in. Many of the period-correct details that made the original Jazz® basses so great are meticulously replicated in this classic vintage-vibe beauty, which features the original offset waist, ultra-slim neck and pair of vintage-style alnico magnet Jazz Bass single-coil pickups. Whether it's early '60s Motown, British Invasion, American garage or later-'60s heavy rock and soul, this bass embodies a fantastic era in music.

Mustang® Bass

Vintage White

Fender's popular Mustang® Bass guitar was introduced in 1966 as a cool short-scale alternative to its illustrious long-scale big brothers. This thoroughbred reissue captures the original instrument's feisty mid-'60s vibe, and is perfect for players who prefer a shorter scale (30") or have smaller hands. Guitar players and younger musicians will find it especially comfortable to play. Features include a solid alder body, split single-coil pickup and a maple neck with a rosewood fingerboard, dot inlays and nickel/silver frets.

Blacktop™

Blacktop™ Jazz Bass®

Black

Phenomenal Blacktop™ series power and performance now comes to a bold interpretation of the venerable Jazz Bass guitar. In one of the most distinctive iterations of the instrument ever designed, Fender introduces the Blacktop Jazz Bass.

Sleek and supercharged, the Blacktop Jazz Bass features dual Blacktop split-coil Precision Bass® pickups that pack a powerful one-two tonal punch. Other distinctive touches are three Jazz Bass control knobs (volume for each pickup and master tone) and a Blacktop HiMass bridge. Features include an alder body, maple neck with modern C shape and gloss urethane finish, rosewood fretboard with 9.5" radius and 20 medium jumbo frets, three-ply black-white-black pickguard, open-gear tuners and chrome hardware. Available in Black and new White Chrome Pearl.

Blacktop™ Precision Bass®

Black

Drive your sound with raw humbucking power. Fender's innovative Blacktop™ series expanded the sonic horizon of classic Fender guitars by powering them with high-gain humbucking pickups. That phenomenal Blacktop power and performance now comes to the bass world with a dual-humbucking-pickup version of the Precision Bass® guitar.

Sleek and supercharged, the Blacktop Precision Bass guitar features two pummeling Blacktop Bass humbucking pickups that make it one of the most powerful basses - if not the most powerful bass - Fender has ever offered. Other distinctive touches are three Jazz Bass control knobs (volume for each pickup and master tone) and a Blacktop™ HiMass bridge. Features include an alder body, maple neck with modern C shape and gloss urethane finish, rosewood fretboard with 9.5" radius and 20 medium jumbo frets, three-ply black-white-black pickguard, open-gear tuners and chrome hardware. Modern Player

Modern Player Jaguar® Bass

Black

Throughout its history, Fender® has always made a special point of welcoming new players to the family by offering entry-level instruments of remarkable style and substance (such as the Duo-Sonic™, Mustang® and Musicmaster® models), with great sound, classic looks, solid performance and eminent affordability. The Modern Player series continues that great my-first-Fender tradition, with thoroughly modern features and several distinctively unconventional new takes on our most revered instruments—all with outstandingly attainable value.

The Modern Player Jaguar Bass® presents a lean, mean and stripped-down version of the ultra-sleek bass model, with a powerful P/J configuration—a Modern Player Precision Bass middle pickup and Modern Player Jazz Bass® bridge pickup—and streamlined control configuration. Features include a koto body, C-shaped maple neck, maple fretboard with 9.5" radius and 20 jumbo frets, three-ply parchment pickguard, three Jazz Bass control knobs (middle volume, bridge volume, master tone), vintage-style four-saddle bridge with brass saddles, open-gear tuners and nickel/chrome hardware. J5 Telecaster®

Black

John 5 is a self-described “Fender® fanatic” with a jaw-dropping collection of his favorite instrument, the Telecaster® (“the greatest guitars ever built, by far,” in his words). His Squier® signature model, the J5 Telecaster®, is a double-bound beauty based on his oft-modded workhorse Telecaster®, which was pieced together at the Fender® Custom Shop. Features include John 5’s distinctive black-and-chrome look, a double-bound alder body with a gloss black polyester finish, a polished stainless steel pickguard and chrome hardware. The one-piece maple neck has a modern “C” shape, a matching black Telecaster® headstock and a 12”-radius rosewood fingerboard with 22 medium jumbo frets. The custom-designed humbucking pickups use a special dual-volume setup with the bridge pickup control in the front position and the neck pickup control in the back position (5 prefers this setup because he spends much time giving the bridge pickup a workout). Rapid toggling the upper-bout three-way pickup switch gives you 5’s signature “kill” effect by turning off the neck pickup volume and leaving the bridge control full up.

Joe Trohman Telecaster®

2-Tone Sunburst

Squier and guitarist Joe Trohman (the Damned Things/Fall Out Boy) have teamed up to create an unusual new take on the venerable early-'70s Fender® Telecaster Deluxe. The Joe Trohman Telecaster guitar is a triple-pickup beauty that rocks a ton of tones with easy switching features. Like all Squier guitars, it delivers value that’s as huge as its sound.

Features include an alder body, C-shaped maple neck, large 1968-style Stratocaster® headstock with Trohman’s signature on the back, rosewood fingerboard with 12” radius and 22 jumbo frets, two open-coil humbucking pickups (neck and bridge), single-coil Stratocaster® middle pickup, five-position rotary pickup selector switch, upper bout kill switch, three-ply black-white-black pickguard, skirted black/chrome amp control knobs, vintage-style six-saddle strings-through-body hardtail bridge, chrome hardware, die-cast tuners and Two-color Sunburst finish.

Wildwood

Wildwood

Fender hails the King of Rock 'n' Roll and transports you back to 1967 with the introduction of the Elvis® Kingman acoustic guitar—a sharp looking, rich-sounding, hip-swaying evocation of the freewheeling Fender acoustic that Elvis Presley® wielded with consummate cool in '67 cinematic romp Clambake.

In addition to honoring the King, the Elvis® Kingman dreadnought also recreates Fender's famous mid-'60s "Wildwood" finish, in which living beech trees that provided the backs and sides of the unusual instruments were dyed in several elegantly striking colors before being harvested.

Highly distinctive features include Presley's signature on the front of the Wildwood-style headstock, solid spruce top with scalloped X-bracing for full and resonant tone, laminated Wildwood-style back and sides, Ivoroid neck and body binding, stylish dual checkerboard rosette, maple neck, 20-fret rosewood fingerboard with block position inlays and bone nut, Fender "Viking" rosewood bridge with cream-colored pins and compensated bone saddle, chrome hardware and gloss neck and body finish.

Ukulele Pa'ina - Solid Mahogany w/ Electronics

Mahogany

Fender® brings you the authentic sound of the Hawaiian Islands with its first-ever series of ukulele models. Ukuleles are enjoying renewed popularity, with exquisite sounds and designs that are a far cry from mere musical toys. Originally built by Portuguese immigrants to the Hawaiian Islands in the 1880s, the small guitar-like instruments produced a lilting sound that instantly evoked the lush South Pacific atmosphere of their island homeland. Fender's three new tenor-style ukulele models offer finely crafted sound and construction; they too instantly evoke the sound and spirit of Hawaii. Each features the distinctive Fender Telecaster® guitar headstock shape, unique body shapes and bracing patterns designed exclusively for Fender and a Fender ukulele gig bag to get you started. This one is the Fender Ukulele Pa'ina, a top-line model that gets its name from the Hawaiian word for party. Made of solid mahogany, with satin finish and passive electronics that let you plug it in and turn it up at the next luau.

Ukulele Nohea - All Koa

Koa

Fender® brings you the authentic sound of the Hawaiian Islands with its first-ever series of ukulele models. Ukuleles are enjoying renewed popularity, with exquisite sounds and designs that are a far cry from mere musical toys. Originally built by Portuguese immigrants to the Hawaiian Islands in the 1880s, the small guitar-like instruments produced a lilting sound that instantly evoked the lush South Pacific atmosphere of their island homeland. Fender's three new tenor-style ukulele models offer finely crafted sound and construction; they too instantly evoke the sound and spirit of Hawaii. Each features the distinctive Fender Telecaster® guitar headstock shape, unique body shapes and bracing patterns designed exclusively for Fender and a Fender ukulele gig bag to get you started. This one is the Fender Ukulele Nohea. In Hawaiian, this name translates directly into the English lovely, which this model certainly is. Built of laminated koa (a native Hawaiian hardwood used by ancient Hawaiians to build dugout canoes), with a gloss finish and aged abalone acrylic binding.

Artist Signature

EC Twinolux™

New

In a historic collaboration, Fender introduces its first artist signature amplifiers-EC Series amps bearing the name of legendary guitarist Eric Clapton.

Built to the exacting specifications of Clapton himself, the EC Twinolux is a fascinating variation on the tweed '57 Twin amp and our answer to his call for a special model with several distinctive features. Handmade in the United States with '50s-era output tube bias tremolo (which produced a more throbbing pulse than later Fender tremolo circuits) and a switchable power attenuator (reduces speaker output and can disable one speaker for even lower output), it presents the pinnacle of personally inspired amp tone for stage and studio alike and is a must for Clapton fans and guitarists who want the ultimate in tube performance.

Features include hand-wired all-tube circuitry on eyelet board with premium components; circuit based on late-'50s Fender Twin amp model 5E8-A (about 40 watts); single channel with high-gain and low-gain inputs; tremolo with speed and intensity controls (can be selected with included footswitch); dual Special Design 12" Weber® speakers (by Eminence®) with alnico magnets for dynamic, sensitive response; two Groove Tubes® 6L6GE output tubes, four 12AX7 preamp tubes and two 5U4 rectifier tubes; Mercury Magnetics custom transformers; finger-joined solid pine enclosure for warm, resonant tone; lacquered tweed covering with vintage-style brown/gold grille cloth and leather strap handle. Deluxe fitted cover included.

EC Tremolux™

New

In a historic collaboration, Fender introduces its first artist signature amplifiers-EC Series amps bearing the name of legendary guitarist Eric Clapton.

1950s-era Deluxe and Tremolux amps are prized for the warm, rich compressed tones of blues and early rock 'n' roll. Clapton often uses a Deluxe when playing traditional blues, and we've answered his call for a special model with several distinctive features by introducing the EC Tremolux amp. Built to Clapton's own exacting specifications and handmade in the United States, it's a fascinating variation on the '57 Deluxe designed with a '50s-era output tube bias tremolo (which produced a more throbbing pulse than later Fender tremolo circuits) and a switchable power attenuator (reduces speaker output). A pinnacle of personally inspired amp tone for stage and studio alike, it's a must for Clapton fans and guitarists who want the ultimate in tube performance.

Features include hand-wired all-tube circuitry on eyelet board with premium components; circuit based on late-'50s Fender Deluxe amp model 5E3 (about 12 watts); single channel with high-gain and low-gain inputs; tremolo speed control and footswitch; fixed bias for increased headroom; single 12" Celestion® Heritage G12-65 speaker for increased high-gain playing definition; two Groove Tubes® 6V6GT output tubes, three 12AX7 preamp tubes and 5Y3GT rectifier tube; Mercury Magnetics custom transformers; internal speaker disconnect (allows use of external 8-ohm speaker enclosure); finger-joined solid pine enclosure for warm, resonant tone; lacquered tweed covering with vintage-style brown/gold grille cloth and leather strap handle. Deluxe fitted cover included.

EC Vibro Champ®

New

In a historic collaboration, Fender introduces its first artist signature amplifiers-EC Series amps bearing the name of legendary guitarist Eric Clapton.

Clapton recorded some of his biggest hits with a tweed Champ; a late 1950s practice amp and Fender classic prized by countless pros for its great low-output sound and easy-to-record performance. He still uses one today, and we've answered his call for a special model with several distinctive features. Built to Clapton's own exacting specifications and handmade in the United States, the EC Vibro Champ is a fascinating variation on the '57 Champ designed with a '50s-era output tube bias tremolo (which produced a more throbbing pulse than later Fender tremolo circuits) and a switchable power attenuator (reduces speaker output). It's a must for Clapton fans and guitarists who want the ultimate in low-power tube performance.

Features include hand-wired all-tube circuitry on eyelet board with premium components; circuit based on late-'50s Fender Champ amp model 5F1 (about 5 watts); tremolo speed control and footswitch jack (footswitch optional); single 8" Weber® Signature speaker with alnico magnet for dynamic, sensitive response; Groove Tubes® 6V6GT output tube, two 12AX7 preamp tubes and 5Y3GT rectifier tube; Schumacher custom transformers; internal speaker disconnect (allows use of external 4-ohm speaker enclosure); finger-joined solid pine enclosure for warm, resonant tone; lacquered tweed covering with vintage-style brown/gold grille cloth and leather strap handle. Machete™

The new Machete amp is unlike any guitar amp Fender has ever created—a high-performance, high-gain, high-end tone machine that combines all-tube tone and highly distinctive cosmetics. Discerning guitarists and amp connoisseurs who are both meticulous and adventurous about even the finest details of their sound will find the Machete a formidable new member of the Fender family. The 50-watt, dual-channel Machete combo boasts a completely new high-gain channel unlike anything ever seen on a Fender amp, an extremely clear-sounding clean channel that can be pushed into aggressive rhythm guitar territory, and onboard digital reverb. Its heavily robust enclosure construction and single 12" Celestion® speaker deliver full, rich and pummeling response, with a midrange notch control, adjustable speaker damping for finely tuned performance, XLR output with switchable speaker muting and cabinet emulation, and push-pull pots for bright boost and gain boost on the rhythm channel. Its distinctive cosmetics include black vinyl covering with inlaid white piping and gray vinyl "steering wheel grip" accents, new Black Silver Strand grille cloth, heavily knurled chrome knobs and all-new corners and hardware. Four-button footswitch and fitted cover included.

Vintage Reissue

'59 Bassman® LTD

In the 1950s, the Fender® Bassman® amplified a great new invention - the Fender Precision Bass® guitar. At 50 watts, it competed easily with the common instrumentation of the day: horns, piano, small drum kit, and maybe even an electric guitar through a new 10-watt amp. Through the '60s and '70s, the original all-tube tweed 4x10" Bassman® was popular with rock, country and blues guitarists as a reliably great-sounding and easy-to-use guitar amp. In the '90s, Fender released an affordable '59 Bassman reissue amplifier to great acclaim. Many guitarists, tired of experimenting with preamps, equalizers and effects racks, rediscovered the simple pleasure of plugging into a Fender tube amp. The reissue Bassman's wide stage coverage, touch-sensitive dynamics and full-frequency swirl make it perfect for building great tone with almost any guitar or effect, and it remains a staple of the Fender guitar amp line to this day.

'65 Twin Custom 15

The '65 Twin Custom™ 15 is an all-tube combo amp that pairs an 85-watt reissue '65 Twin Reverb® chassis with an enlarged cabinet and single 15" speaker instead of the usual pair of 12s. The Twin's vibrato, reverb and crystal clean tones are great as always, and the 15's extra-fat clear bottom end, smooth treble and high power handling are fantastic. We designed an updated speaker with Eminence® based on the now-collectible JBL® D130F model Fender used in the '60s and '70s; its cast frame, shallow cone, high flux density, large voice coil and aluminum center cap deliver clean, precise performance for players in all genres, with amazing 3-D bass and treble separation. Other features include a metal badge on the grille, two-button reverb/vibrato footswitch, removable casters, nickel hardware, heavy-duty textured black vinyl covering with silver grille cloth, and an embroidered cover.

Deluxe™ VM

Fender® tube combos are considered the most treasured guitar amplifiers ever. Popular models like the Deluxe Reverb® and Hot Rod Deluxe™ are easily as desirable now as they were when they were introduced. Countless guitarists reach for some version of a Fender Deluxe™ amp when they do a session or a gig, thanks to its grab-and-go 1x12" combo portability, ease of use and great tone. The Deluxe VM amplifier takes the sought-after Deluxe formula into a new era of "Vintage Modified" performance by combining a real tube amp with several essential effects. The 40-watt tube design provides a great tonal foundation; the versatile tube preamp offers a wide range of tone and gain settings, from world-standard Blackface™ Fender clean to aggressive overdrive with post-gain EQ. DSP effects include reverb, chorus/vibrato, and delay, with the convenience and adjustability of standard stomp boxes and without the need for extra cables or power supplies.

Band-Master® VM Head

Fender® tube amps are considered the most treasured guitar amplifiers of all time. Popular models like the Showman® and Band-Master®, the first professional tube heads on the market, are considered collectors items today. The Band-Master® VM amplifier takes the desirable mid-powered tube head concept to "Vintage Modified" performance by combining a real tube amp with a complement of essential effects. The 40-watt tube platform provides a foundation of great tone to build on, and the versatile tube preamp offers a wide range of tone and gain settings from world-standard Blackface™ Fender® clean to aggressive overdrive with post-gain EQ. An all-new high-quality DSP platform adds reverb, chorus/vibrato, and delay effects with the convenience and "tweakability" of standard stomp boxes, without the need for extra cables or power supplies. The Band-Master® VM amp (combined with its companion 212 VM enclosure) is the perfect head/cabinet rig for onstage versatility and big, fat Fender® tone. **Note: Amplifier pictured with speaker enclosure.

Pawn Shop Specials

Excelsior™

New

Alluringly refined yet harboring tones from polite to raw to raucous, the Pawn Shop Special Excelsior model is undoubtedly one of the most distinctive tube combo amps in Fender history. Its brown textured vinyl covering, smartly stylish “E” grille design and bold crossed-swords front-panel badge convey a decidedly stately vibe with a marked air of cold war cool. To say nothing of its admirable tone and power. The 13-watt Excelsior elegantly encloses a single 15” Special Design speaker, with a bottom-loaded primary chassis and top-loaded control chassis for operating convenience and low noise (powered by two 6V6 output tubes and two 12AX7 preamp tubes). Distinctive features include “instrument,” “microphone” and “accordion” inputs that each have individually optimized circuitry; tremolo circuit with speed control, bright/dark tone switch (for treble or bass emphasis), volume control and 1/4” internal speaker disconnect that lets the amp drive an external speaker enclosure. For playing at home, smaller gigs and studio sessions, the Excelsior is a class act that brings a fresh and unconventional new vibe to your playing.

Greta™

New

In the playfully diminutive form of a vintage tabletop radio, the Pawn Shop Special Greta model is quite possibly the most unusual Fender tube amp ever. In fact, nobody would blame you if you saw a Greta and, not yet realizing its true identity, tried to tune in the local weather on it. But an amp is exactly what it is—a two-watt tabletop beauty with a 4” Special Design speaker, old-school VU meter with “clean to overload” indicator display and simple volume and tone controls. Its charmingly vintage-style enclosure has front and rear wood panels finished in bright red, gold-finished metal top and sides for increased shielding, “Greta” script badge on the front panel and tabletop feet. Under the hood and on the back panel, the Greta features a single 12AT7 output tube and 12AX7 preamp tube, with a 1/4” instrument jack and 1/4” line out jack (for preamp use with another amplifier). Greta produces a variety of low-volume clean and overdriven guitar tones, but even if you never plug a guitar into it, the 1/8” back-panel auxiliary input is perfect for iPod or other media player use, with great mono tube playback sound that’ll have you rocking right there at your desk.

Acoustasonic™

Acoustasonic™ 150 Combo

New

The new Fender Acoustasonic™ 150 is perfect for the acoustic guitarist who needs a light, loud, versatile and flexible amp loaded with tonal innovations and useful features. The Acoustasonic 150 packs full acoustic resonance and crystal clarity into a lightweight (only 22.5 lbs.) amp with a new ultra-efficient 150-watt (2x75) stereo power amp, dual 8" foam-surround low-frequency drivers and high-frequency tweeter. Its new Voicing control lets any guitar simulate the tonality of parlor, dreadnought and jumbo acoustics, or Voicing can be turned off for pure amp output response. For acoustic players who double on electric guitar, the Voicing control also has Blackface, Tweed and British amp settings, which makes a second amp just for electric guitar unnecessary.

Other features include instrument and microphone channels with independent EQ and effects controls; new feedback elimination control with on/off switch for each channel; patented String Dynamics™ control that tames harsh treble notes; effects including reverb, delay, chorus, Vibratone, and more; XLR line out with level control and ground lift; stereo effects loop; USB connector for digital recording output (and possible future firmware updates); strong five-ply plywood construction and optional two-button effects select footswitch.

TB-1200 Head

The PRO series TB-1200 combines 1,200 watts of earth-shaking power with total tonal finesse and versatility to produce thick, natural and balanced bass tone that sits perfectly in the mix onstage and in the studio. Based on the acclaimed TBP-1 tube bass preamp, the key to its sound is the passive tone stack - the backbone of classic Fender guitar and bass amps - in which each control knob setting affects the sound of the other controls, producing big, warm notes. The overdrive section (gain, volume, blend) sits on top of the clean channel, letting you dial in tones from subtle grind to full-on overdrive. Vari-Q™ is a smart semi-parametric EQ with a user-selectable frequency and 15 dB cut/boost. When boosting frequencies, it automatically widens the focus of the Q for a broader, more musical boost. When cutting frequencies, it automatically narrows the focus of the Q for a well-defined cut (notch). Room Balance is a global EQ shift for cabinets/stage response. A clockwise turn cuts low-end frequencies while raising upper frequencies. A counter-clockwise turn boosts low-end frequencies while cutting upper frequencies. This knob does not affect the XLR out, so you can dial in your stage sound while giving the soundman an unaltered signal. Four-button TBFS-4 footswitch included.
