9 Series Effect Pedals

BB9 Bottom Booster

The new Ibanez BB9 is perfect for the player who wants to push their amp into overdrive without losing any of their low end. The BB9 works wonders with bright tube amps like the JCM800. While a super responsive tone control allows for a wide variety of sounds, true bypass switching means your tone will not be compromised when adding this pedal into your chain.

- Drive, Level and Tone
- LIST: \$128.55**

JD9 Jet Driver

The new Ibanez JD9 offers a wide variety of tones ranging from smooth overdrive to amp-like distortion. With an organic sound and true bypass switching, you won't have to worry about tone color when adding this pedal to your chain. Equipped with massive amounts of output volume, this pedal is ideal for pushing tube amps!

- Drive, Level, Mid and Tone
- LIST: \$128.55**

TS9B Bass Tube Screamer

The newest addition to the Tube Screamer family, the TS9B is the first ever Tube Screamer designed specifically for bass players. This pedal ranges from subtle overdrive to vintage fuzz and everything in-between. High and Low controls give the player the ability to dial in just the right sound for their amp. The additional mix control allows you to adjust the right amount of wet and dry signal to ensure your bottom end remains intact.

- Drive, Level, Bass, Treble and Mix
