GUITARS

and BASSES

Charvel/Jackson offers an infinite variety of opportunities for you to participate in the design of your instrument. Pictured on these pages are some samples of instruments which are possible.

Randy Rhoads needs no introduction. For the fifteen months prior to his death, Randy and the staff of Charvel/Jackson worked very closely to create this guitar. With the consent and agreement of his family, Charvel/Jackson now present the Randy Rhoads Custom, and the Randy Rhoads Student Guitars. Unique in design, they are being played by major artists throughout the world.
