**CREATIVE FREEDOM**

These unique 5-String instruments offer today's guitarists unequalled sonic possibilities. Whether tuned in 4ths, 5ths or ♯, these extended scale guitars can eclipse the tonal range of any 7-String guitar, allowing players to push the envelope of 'low tuning' to the maximum ... The A-5X and C-5X are far more than 'one-trick-ponies', as creative possibilities are endless. Visit our website for some suggestions and see how some Schecter Artists are using and abusing them!

# Custom Order GUITARS

## Schecter CUSTOM SHOP

When a standard or 'off-the-rack' instrument just won't do, Schecter Guitars has the knowledge, experience and personnel to make your dream guitar become a reality. Since 1976, uncompromising quality and a passion for the instrument have become synonymous with Schecter. We have and continue to build guitars and basses for many of the top players for stage and studio.
