©2006 Schecter Guitar Research. All Rights Reserved. Prices and Specifications are subject to change.

THIRTY YEARS. SO MUCH HAS CHANGED,
NOT ONLY IN MUSIC, BUT THE WORLD
WE LIVE IN.

ONE THING THAT HAS REMAINED A
CONSTANT HAS BEEN SCHECTER GUITAR'S
UNWAVERING COMMITMENT TO QUALITY
AND INNOVATION... WHICH HAS NEVER BEEN
BETTER EXEMPLIFIED THAN IN THE PAGES
TO FOLLOW.

THIS CATALOG IS DEDICATED TO THE
SPIRIT, HEART AND HERITAGE OF THE
PEOPLE AND CITY OF NEW ORLEANS AND
THE ENTIRE GULF COAST.

Michael Ciravolo
President

Graph Tech
CUTLAR LABS

TonePros
Locking Bridges

The C-1 E/A combines the mellow warmth of a vintage hollow-body with the addition of true acoustic tone and clarity, courtesy of a specially designed TonePros Bridge loaded with a Graph Tech "Ghost" Piezo System.

The Duncan Designed Humbuckers & Piezo acoustic signal can be played separately or combined together for exciting new tonal possibilities!

Grover Tuners are enclosed, permanently lubricated 18:1 machine heads, and the most trusted name in music around the world.

Push-Pull Coil Tap
 Pulling up on the tone knob allows you to "tap" the pickups, faithfully emulating the sounds of vintage single-coil instruments.

Double-Expanding truss rod
 The best in neck control: smooth 2-way action with superior strength, corrects both up-bow and back-bow.

TonePros components are the highest quality available and greatly improve the instrument's sustain, intonation and tonal qualities.

Ultra Access Neck Joint
 Developed in the Schecter Custom Shop, this sleek set-neck joint allows for unobstructed access to the instrument's upper frets.

All Diamond Series electric guitars feature factory-installed GHS Boomers. All Diamond Series electric basses feature factory-installed Elixir Nanoweb strings.

Seymour Duncan pickups help provide the tone in our award-winning C-1 Classics and BlackJack Collection.

Since day one, Duncan Designed pickups have been a staple in Diamond Series guitars, offering great tone and affordability.

Brand-name floating bridges like Floyd Rose & Wilkinson lend new tonal possibilities, while giving the confidence of stable tuning.

Schecter SuperRock II & MonsterTone II pickups offer classic Schecter looks and tone straight out of our USA Custom Shop.

EMG & EMGHZ pickups provide the Hellraiser and Damien Collections with incredible sustain and high output for maximum overdrive.

EMG EQ/Bass Preamps help deliver all the tonal quality one would expect from a Diamond Series bass.

SCHECTER GUITAR RESEARCH

*Limited Edition Custom Shop
30th Anniversary Classic*

U
S
A

To commemorate our 30th Anniversary, we have commissioned twelve USA Custom Shop CS-1's for 2006. Each of these hand-built Classics will be unique. Various exotic tonewoods will be combined with the highest quality components, including custom-wound, hand-signed Seymour W. Duncan humbuckers, each voiced to further enhance the CS-1's tonal characteristics. These instruments will be cherished as much for their stunning tone as their collector's value. A full neck-length 30th Anniversary inlay, exotic wood truss rod cover and engraved pickup covers will add to each instrument's hand-crafted elegance.
