

Squier by Fender

Players have long admired the legendary sound and feel of Fender guitars and basses. Squier—a long-standing member of the Fender family—brings you brilliant executions of these instruments at remarkably affordable prices.

The design and production of the Squier line of instruments is supervised by Fender's master craftsmen. Everything from the

selection of quality hardwoods, to the winding of pickups, right down to the final setup must meet Fender's demanding specifications. The final result is brilliant sound, superior playability and solid, dependable quality.

So that you can choose an instrument that matches your playing style, the Squier lineup offers guitars with various pickup configurations,

tremolo systems and body shapes.

The widely imitated and instantly recognizable Fender headstock and neck comes with maple or rosewood fretboards. And adjustable bridges and truss rods make them easy to set up for different string gauges and playing styles.

High gloss, durable finishes are available in: Black (506), Arctic White (580), Torino Red (558), Lake Placid Blue (502) and Blonde (501).

Squier Basses

Fender Precision Bass® and Jazz Bass® guitars have been the choice of discerning musicians since the very beginning. And the Squier P-Bass®, J-Bass® and Bullet Bass® guitars deliver the authentic sound and feel of these legends for considerably lower prices than their illustrious predecessors.

The Squier basses incorporate fully professional features such

as split pickups, solid hardwood bodies and dot-inlaid rosewood fretboards that deliver rich tones and easy playability. Choose from 32" and 34" scale designs. And the Squier P-Bass is available in a left-handed model.

These instruments offer the ultimate combination of great sound and exceptional value. Nothing else in their class even comes close!
