Four generations of guitar making
Bernardo Rico, Bernardo Mason Rico, Bernie Rico Sr. and Bernie Rico Jr.

Like no other guitar company, B.C. Rich is founded on a centuries-old tradition of hand-crafted acoustic guitar making, which traces its roots to the early 1800s. The Spanish, flamenco tradition of hand-made custom guitar building has been expanded through four generations in the Rico family, and eventually gave rise to the birth of B.C. Rich, founded by master Luthier, Bernardo C. Rico in the early 1960’s.

Like his father, Bernardo Mason Rico and his father before him, Bernardo as a young boy learned the art of building fine hand made acoustic guitars. But young Bernardo was a rebel, and he wanted to do something different. So he bucked the family tradition, moved out of his fathers East Los Angeles guitar shop, and set up his own factory, building custom handmade electric guitars! The rest is rock-n-roll history.

Bernie's reputation as a guitar builder quickly spread around the world, and he was commissioned to build custom handmade guitars by many of the worlds premier musicians of the day, including Eric Clapton, Elvis Presley, Jimmie Hendrix, John Denver and the Beach Boys. In the early seventies, Bernie built guitars for the likes of Paul Stanley (Kiss), Joe Perry (Aerosmith), Alice Cooper and an endless list of others. As rock swept through the eighties, B.C. Rich built guitars for Slash (Guns & Roses), C.C. Deville (Poison) and a list of bands and guitar players that reads like a page out of the rock and roll hall of fame.

Always an innovator, Bernie Rico was not content building strat style guitars, like everyone else. He knew that he could do better! He invented the heelless neck-thru electric guitar, and through the years, has pioneered innovative shapes never before seen or imagined, inventing the classic Seagull...The Eagle...The Mockingbird......and the heavy metal Ironbird and Warlock. Bernie's innovative guitar designs were destined to be the shape of things to come.

As B.C. Rich moves towards the 21st century, Bernie, with his son Bernie Jr. will be taking the fine art of guitar building to an exciting new level of style, innovation and unique handmade quality. For 1999, the Rico's are offering the only 7 string neck through guitar ever made, featuring unique semi hollow body tone chambers for sound, low B tuning and Floyd Rose technology. Also unveiled in 1999, will be the Mockingbird Acoustic guitar (MAG) with it's special diamond sound hole, which promises to be the future for modern acoustic electric guitars as B.C. Rich moves into the future.

In 1999, B.C. Rich will be bigger and better than ever. All of our exciting guitar shapes will be offered both, in the affordable import series (NJ, Platinum, and Bronze), as well as our custom, handmade American series.

We thank all of our customers for their support, and promise for 1999-2000, the same tradition, quality, style, and innovation, the guitar players through the world have come to expect from B.C. Rich.

Signed by Bernie Rico Sr. and Bernie Rico Jr.

MIKE DOYLE (Fuel Syndicate)  MARC MINARIK (Lily’s Siren)  REX BROWN (Pantera)
MIKE DOYLE (Fuel Syndicate)
Starting at an early age Bernie Rico Jr. had a fascination for guitars. He was brought to the factory since his earliest recollection. Bernie Junior's interest in guitars was different from most his age as his fascination came from working on them. He had an outstanding teacher, mentor and friend to show him the trade. Bernie Junior had paid his dues over the past 20 years as anyone else who came to his father for work. He learned from the best in the business everything from how to repair guitars, hand carve intricate tops, do finishing and polishing, electronic work, production assembly and to how to take an idea and turn it from a concept, to a design, and into a hand carved reality. Little did Bernie Jr. imagine that someday this person would ask him to join as his partner in business. This person was his father Bernie C. Rico Sr. This is the way of their family. Bernie Rico Sr. had the same exposure to the world of guitars from his father. His father taught him the fine skills of guitar making and repair. Chances are if you have an American handmade B.C. Rich, it did not leave the factory without it passing through Bernie Juniors hands first. He worked side by side under the supervision of his father producing guitars. By 1993 Bernie Rico Jr. was managing the factory, which gave Sr. an opportunity to promote corporate growth and to share with Bernie Jr. his experience and the responsibility of making corporate decisions. While much of the work performed by Bernie Rico Sr. was focused on guitar design and administrative tasks, he always remained active in the production of B.C. Rich Guitars up until his very last day.

Although Bernie Sr. has left and will be missed by all that he touched, he is more so with us then ever and within the spirit of B.C. Rich Guitars. We all look forward to the future as the tradition and legacy of B.C. Rich continues through the new Millennium.
We would also like to thank the following people for assisting in the production of this brochure.

A very special thanks to all our customers that have supported us from the very beginning and will always be there.

“We know who you are”

B.C. Rich uses Wolf Rose Bullet preamps exclusively.
