

To us, guitar has always been an extreme sport. It s challenging and demanding, yet energizing and fun.

GUITARS & BASSES

DESIRE

COMMITMENT

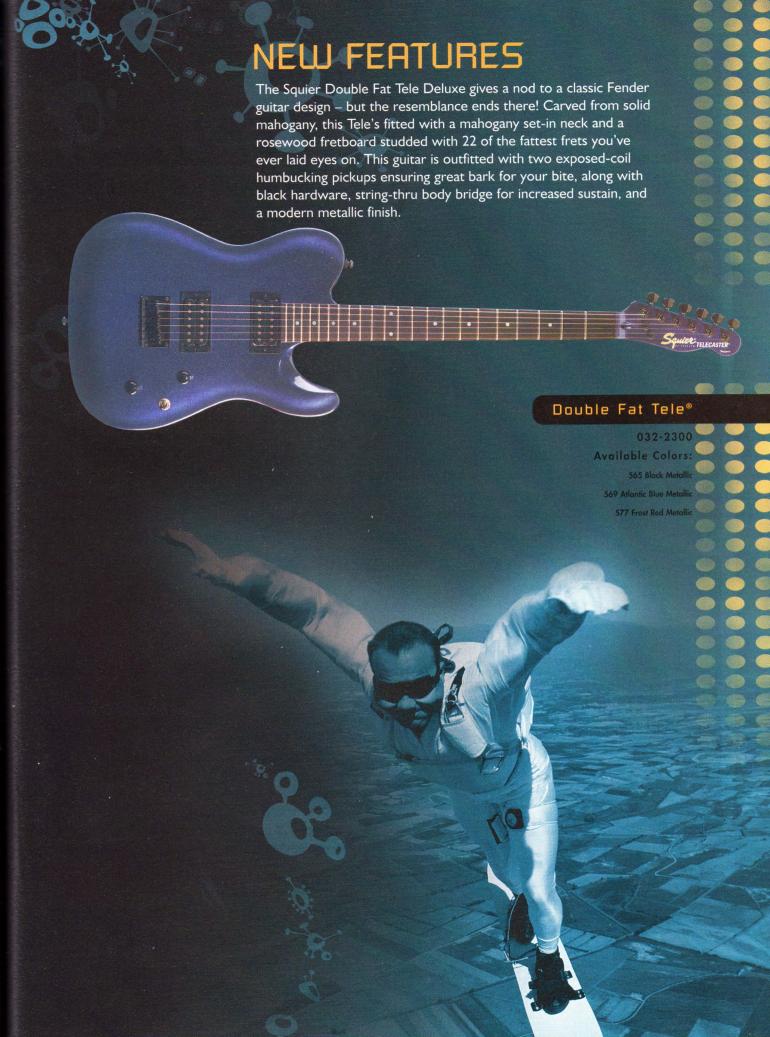

EXPRESSION

The desire to play guitar marks the beginning of a relationship that will last the rest of your life.

Playing music is a commitment you ll never regret. You ll find yourself thinking about it day and night, working out new riffs in your sleep and wanting to have your guitar with you at all times.

The satisfaction and fun of expressing your creativity, your moods and your experiences with a Squier will take you beyond your wildest dreams.

With a Squier guitar or bass, you can explore your limits and find your voice. In your hands, it will whisper your fears, speak your mind, scream your rage and sing your passions.

SUBSONIC STAGEMASTER™ Deluxe

032-4805

Available Colors:

565 Black Metallic

The Stagemaster Deluxe arms you with the ultimate in radical design and performance. Featuring neckthrough-body construction, this Stagemaster backs its sleek looks with powerful tone and sustain. This axe is one of the most playable guitars of its kind, sporting everything you need to get out and get noticed easy access to all 24 frets, a double-locking Floyd Rose®-licensed tremolo and high-output paraffinsoaked pickups that won't squeal when you wail. Choose from two popular pickup configurations: the Stagemaster Deluxe HH offers two humbuckers and the fully-loaded Stagemaster Deluxe HSH features a hum/single/hum configuration. New for 2001, the Subsonic Stagemaster Deluxe takes you to new depths. It's a baritone-range instrument that's got a solidrock heart.

STAGEMASTER™ 7HT / 7FR

HT:032-3837 FR:132-3807

Available Colors:

565 Black Metallic

587 Cobalt Blue Metallic

593 Purple Metallic

If you haven't discovered what a seven-string guitar can add to your sonic arsenal, let's just say it's a little like inviting a pyromaniac to a party in a fireworks factory. The Squier Stagemaster 7 has two high-output humbuckers screwed directly into its solid alder body for gut-shaking chords and soaring sustain. Two versions are available. The HT features a hardtail bridge that keeps things straight-forward and rock-solid. The FR includes a Floyd Rose®-licensed tremolo for maximum tuning stability on your wild whammy excursions.

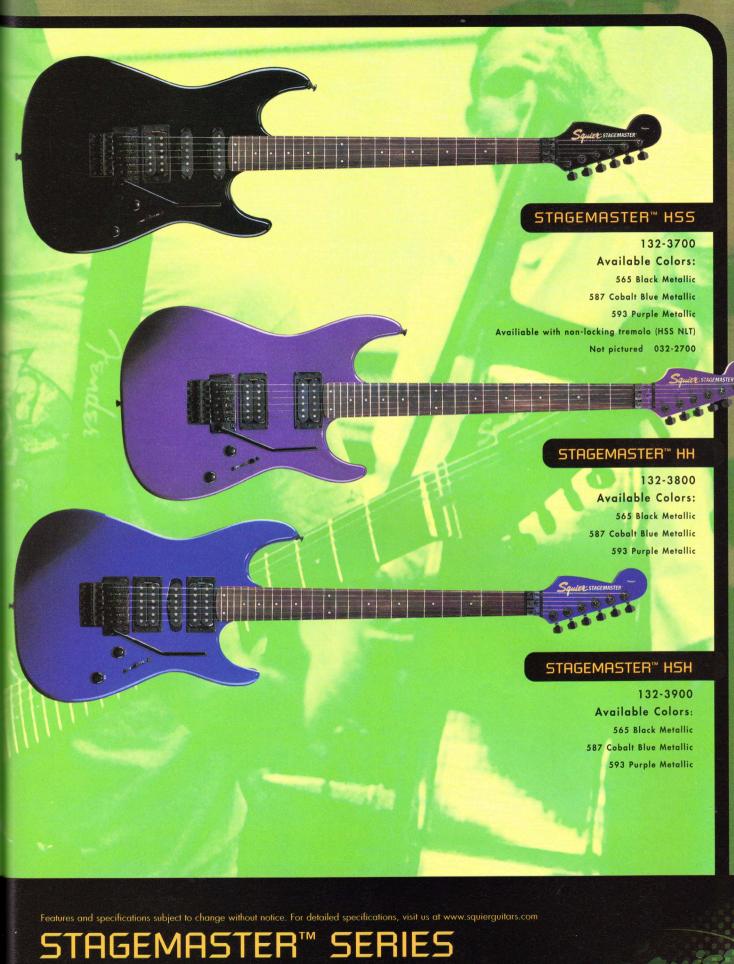

Seven-string models are available with either a double-locking Floyd Rose-licensed tremolo system or a fixed hardtail bridge.

The new Squier Stagemaster series of guitars represents a radical departure from traditional guitar designs. Specially engineered to satisfy the demands of a new generation of hard rock players, quality and performance are fused with tone and vibe. The Stagemaster's sleek body is crafted from solid American alder and yields a warm, complex tone. The Stagemaster's rosewood fretboard is radiused to match the Floyd Rose bridge for slick action and choke-free bends. And, the heel of its maple neck is shaped to your hand, allowing easy access to all 24 medium-jumbo frets. The playability of the Stagemaster is unmatched, even by guitars costing twice as much.

All Stagemaster pickups are paraffin-soaked, just like expensive aftermarket pickups, to reduce unwanted squealing and microphonic feedback. Because Squier is about finding your own voice, we offer three high-output Stagemaster pickup configurations. The Stagemaster HSS is equipped with a biting single-coil pickup in the neck and middle positions and a raging humbucker by the bridge. The HH is 100% saturated fat, sporting two humbuckers, and finally, the HSH offers the maximum flexibility of two humbuckers flanking one single-coil pickup in the middle position.

565 Black Metallic

593 Purple Metallic

Often imitated but never matched, the Stratocaster® is a classic American guitar design. But why buy a no-name knock-off when Squier offers a real Stratocaster, designed and backed by Fender?

The new Squier Standard Stratocaster plays great with a traditional vibe and modern feel. Newly upgraded throughout, these classics stand alone. Player-friendly features like the 22-fret fast-action neck, late '60s big headstock and a flatter 9.5-inch fretboard radius make for easier playing and choke-free bends. Plus, Alnico single-coil pickups!

The die-cast tuners are lifetime-lubricated for years of trouble-free service and tuning stability. A new twin-pivot bridge with satin-anodized saddles provides smooth tremolo action. From their look and feel, to the quality of their components, these are the guitars's value-conscious musicians have been waiting for.

On the new Standard Stratocaster, you can choose from a maple or rosewood fingerboard, and there are six beautiful finish options like the classic 3-Color Sunburst (shown in maple) and Shoreline Gold (shown in rosewood). The Standard Stratocaster is also available in a left-handed version.

Able to go from raw and ragged to smooth and mellow, humbucking pickups have a tonal range all their own. If you like the versatility of mixing a humbucker with single-coils, we've got a Strat® for you, in six- and seven-string versions.

Our Fat Strat and Fat Strat 7 feature the girthsome tone of a high-output humbucker in the bridge position, while the neck and middle positions are fitted with classic single-coil pickups. The Fat Strat features Squier's new fast-action neck profile and '60s big headstock. It also has a 9.5-inch radius and 22 frets for enhanced playability.

Every humbucker-equipped Standard Strat gets our custom Blackout Treatment — black pickguard, black knobs, black trem-tip and black pickup covers.

Available in six new finish options like Sherwood Green Metallic (shown).

Single-coil pickups are bright and versatile, but some players just need the crunch and power of two humbuckers straight-up. If you're that kind of player, our Double Fat Strat and Double Fat Strat 7 guitars were designed for you.

DOUBLE FAT STRAT® 7HT

032-1837

Available Colors:

500 3-Color Sunburst

565 Black Metallic

593 Purple Metallic

Both the Double Fat Strat and Double Fat Strat 7 have neck profiles and headstocks duplicated from a late '60s model Strat. Both guitars also feature a flatter-than-vintage 9.5-inch radius and 22 frets for enhanced playability.

Every humbucker-equipped Standard Strat gets our custom Blackout Treatment — black pickguard, black knobs, black trem-tip and black pickup covers. Other details include a new engraved neck plate and six finish options like Purple Metallic (shown).

The Squier Standard Telecaster® is the genuine article, as only Squier by Fender can offer! Based on the electric guitar that started it all, this isn't some no-name copy. Why settle for a knock-off when you can have the real thing? Squier by Fender!

Upgraded throughout, the Squier Tele® features a new, fast-action neck profile modelled on a late '60s Tele. A hot single-coil pickup in the bridge position provides all the bite you want for stinging leads. In the neck position, choose either the Standard Telecaster's chrome-covered single-coil pickup, or the Fat Telecaster's chrome-covered humbucker and find your own Squier Tele voice.

For something totally different, check out the new Squier Jagmaster™. A collision between vintage vibe and modern design, the Jagmaster is an alternative that works. The solid alder body is inspired by the Fender Jaguar®, but the Jagmaster features a full 25.5-inch scale length for enhanced snap and response.

blazing their own trail.

STANDARD™ SERIES

Two high-output humbuckers and a standard tremolo

The Strat features three single-coil pickups, a standard tremolo and five-way switching for those great in-between tones. The Tele features two single-coil pickups and three-way switching.

Squier instruments are all backed by Fender, so why buy a copy when you can afford the real thing?

Our Squier Bullet® is a simple, affordable and practical guitar designed for beginners and students.

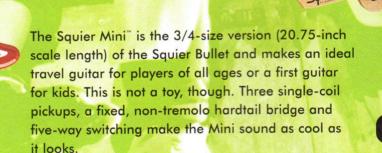

The Bullet features a slightly slimmer laminated body, a 21-fret maple neck with a rosewood fingerboard and chrome covered tuners. Three single-coil pickups, a non-tremolo hardtail bridge and five-way switching make this a good choice for a first guitar, no matter who you are or what style of music you want to learn.

BULLET® SERIES

Whether you're already a five-string player or thinking about trying one out, you'll be impressed by the affordably priced Squier P-Bass Special 5. Features include string spacing that's natural and comfortable, not tight and crowded. The 4-and-1 headstock is ergonomically designed for easy tuning, and it allows the bass to fit in a standard case.

The Squier Affinity" P-Bass is the world's best-selling bass because of its unmatched value. It feels good, sounds good and fits the needs of any player on a budget.

With its comfortable neck, solid alder body and classic tone, the Squier P-Bass conjures up the sound of thousands of recordings in every genre of music. Whether you're just starting, need a bass for occasional use or just want a solid working bass that's as easy to own as it is to play, the Squier P-Bass is a natural choice.

The Squier Bronco Bass is great for guitarists who occassionally need a bass, for younger beginners, for smaller players or for anyone who likes the feel of a short-scale (30 inches) bass. It tunes easily and sounds full and rich, thanks to its maple neck, die-cast tuners and solid agathis body, which is equipped with a single-coil pickup.
