

# B.C. Rich

**GUITARS & BASSES**  
**INTERNATIONAL EDITION**

A close-up photograph of the bridge and pickup area of a B.C. Rich electric guitar. The image is framed by a glowing red outline that traces the shape of the guitar's body. The bridge is a gold-colored tremolo system with six saddles. The pickup is a humbucker with a gold cover. The strings are silver and run from the bridge up to the tuning pegs. The background is black.

# B.C. Rich

## **ATTITUDE**

B. C. Rich is *the* shape in Rock 'n' Roll. Whether it's Classic, Aggro, Hardcore, Thrash, Punk or something totally new, B. C. Rich Guitars and Basses have the looks and the attitude to put you in the spotlight.

We have redesigned and upgraded the entire line. Beginning with the heart and soul of the guitar, the wood body, right down to the strap buttons. Every detail has been addressed. We now bring you the best sounding, best playing, highest quality Bronze, Platinum and NJ Series instruments ever built. Faster necks, BDSM pickups and the **FastBack**<sup>®</sup> neck heel are only a few of the new features found on B. C. Rich guitars.

B. C. Rich is known among guitarists as a "Player's Guitar." We invite you to try the best and put some "**ATTITUDE**" in your playing.
