

[EVIHGEAR.COM](http://EVIHGEAR.COM)

A GUITAR IS A VERY  
PERSONAL EXTENSION OF  
THE PERSON PLAYING IT.  
YOU HAVE TO BE  
EMOTIONALLY AND  
SPIRITUALLY CONNECTED  
TO YOUR INSTRUMENT.

- EDDIE VAN HALEN

THIS IS WHAT I USE

## EDDIE VAN HALEN

EVH products have certainly come a long way since early 2007, when the first Wolfgang® guitar model became available. The lineup has steadily grown to include several distinctive Wolfgang models and Striped Series guitars, a formidable array of 5150™ amplifiers and cabinets, and a wide selection of premium accessories.

And all along, every single item, from the most imposing stack to the smallest pick, lives up to the original EVH premise: You can use what *he* uses. You can have the exact same gear that *he* has. In the beginning, back in the late 2000s, that's exactly what *he* wanted, and that devotion to sharing his quest for tone continues stronger than ever today.

Of course, *he* is Eddie Van Halen, and he remains totally involved in every single facet of bringing you the instruments, amps and accessories that bear his initials. With greater conviction than ever, Eddie remains dedicated to each and every aspect of EVH, because he understands as few others do, that tone is a journey and has a destination. He's chased it all his life—an electrifying pursuit unlikely to ever end—and what he's learned, he's here to share with you and help you on your journey, too.

"A guitar is a very personal extension of the person playing it," he said when the first Wolfgang model was introduced. "You have to be emotionally and spiritually connected to your instrument. I do this because a lot of people ask me if they can get what I use. Well, yes you can, and what you get is identical to what I use."

That still applies—more than ever, in fact. It's been a fantastic seven-year EVH journey already. Here's to the future and beyond.
