2016 CATALOG

■ ■ A GUITAR IS A VERY
PERSONAL EXTENSION OF
THE PERSON PLAYING IT.
YOU HAVE TO BE
EMOTIONALLY AND
SPIRITUALLY CONNECTED
TO YOUR INSTRUMENT. ■ ■

- EDDIE VAN HALEN

EDDIE VAN HALEN

Since its launch in 2007, the EVH brand has had one mission—to take the tools Eddie Van Halen uses to create his groundbreaking guitar work and place them unmodified in your hands. The guitars are tweaked-out for high speed playing and the amps are hot-rodged for gloriously saturated tone. Every piece of EVH gear, from the highly-defined speaker cabinets to the picks, strings and straps, are the real deal—designed, tested, refined and approved by the man himself.

Battle-tested—as he said, “I don’t let anything out unless I’ve taken it on tour,” every single EVH-branded offering is developed and perfected by Eddie Van Halen where the rubber meets the road—in front of an arena full of screaming fans. Born in California and raised onstage, these instruments, amps and accessories are as innovative as Eddie’s playing.

Refining and adjusting components and specs until they’re up to his exacting standards, no piece—no matter how large or small—is produced until he personally signs off on it, reflecting his commitment to quality and his personal connection to the gear that bears his name.

“I don’t want to fight with it,” Eddie said, in regard to his equipment, “I want to speak to it and have it deliver my message—it works with me.” The same equipment he’s created and refined for over four decades is now available to work with you. Plug in and create your own legend with EVH gear—it’s what he uses.

A stylized red signature of Eddie Van Halen, written in a cursive, energetic script. The signature is positioned in the lower right quadrant of the page, set against a dark background with faint, light-colored geometric patterns.
