JACKSON U.S.A. SERIES - MADE IN AMERICA

For those players who want the best that money can buy, but are not interested in having an instrument custom built to their specifications, we offer the Jackson U.S.A. Series. These instruments use the same high quality materials and construction techniques found in our Custom Shop Instruments, but because all of the specifications have been standardized, we can offer them at considerably lower prices than our one of a kind custom creations. All of the U.S.A. Series Models, except the JJ Custom, are available in fifteen different graphic finishes which have been specially created by our staff graphics artists.

Model Name	Retail Price	Finish Options	Body Material	Neck/Fingerboard
Soloist Custom	\$1,995.00	G/01 through G/18	Poplar	Quartersawn Maple/Bound Ebony
Rhoads Custom	\$1,995.00	G/01 through G/18	Poplar	Quartersawn Maple/Bound Ebony
Dinky Custom	\$1,795.00	G/01 through G/18	Basswood	Birdseye Maple or Ebony Fret Board
JJ Custom	\$1,195.00	Black & Trans Red	Mahogany	Quartersawn Maple/Rosewood
JJ Custom (Quilt Top)	\$1,395.00	TR,TSB,CS3	Mahogany/Maple	Quartersawn Maple/Rosewood
Concert Bass Custom	\$1,795.00	G/01 through G/18	Poplar	Quartersawn Maple/Bound Ebony

JACKSON PLAYERS CHOICE SERIES - MADE IN AMERICA

The Jackson factory has more experience building custom instruments than any other builder in America. It is this rich history of creating custom instruments for professional musicians that has helped us develop the Players Choice Series. These guitars utilize the most frequently requested specifications by our endorsers and past customers so that you benefit by their experience. These guitars are priced about ten percent lower than if you were to order them as Custom Shop Instruments.

Model Name	Retail Price	Standard Finishes	Body Material	Neck/Fingerboard
Original Rhoads	\$2,200.00	BLACK	Poplar	Quartersawn Maple/Bound Ebony

Flamed Dinky	\$2,200.00	TBK,TP,TB,TS	Flamed Maple	Quartersawn Maple/Bound Ebony
King V	\$2,200.00	BLACK	Poplar	Quartersawn Maple/Bound Ebony
Charvel San Dimas	\$1,695.00	NATURAL	Koa or Lacewood	Quartersawn Maple/Rosewood

JACKSON CUSTOM SHOP REPLACEMENT NECKS - MADE IN AMERICA

Jackson Custom Shop necks are commonly acknowledged as the best that money can buy. Each neck is made using the same compound fingerboard radius as found on our Custom Shop Guitars. The compound radius is one of the biggest improvements to have ever happened to the electric guitar. It allows for clean bends on the upper frets while preserving a comfortable radius for chording. All replacement necks come with a coat of laquer sealer to protect them from moisture. Jackson headstock necks have the face of the headstock finished in gloss black.

Part Number	Retail Price	Headstock	Fingerboard	Neck Wood
93 - 101	\$300.00	Vintage Strat	Maple	Quartersawn Maple
93 - 102	\$350.00	Vintage Strat	Rosewood	Quartersawn Maple

GENERAL INFORMATION

Ordering a custom instrument is a life long dream for most guitarists. Now you can get exactly the instrument you have always wanted, and know that it will live up to your expectations. The Jackson California Facility has been continuously creating custom guitars longer than any other factory in America. Building a custom instrument by hand takes a considerable amount of time, so please keep this in mind when you order. Typical construction time is sixteen to twenty weeks. Certain times of the year when the factory is very busy, construction times can be as long as thirty weeks. Good things are worth waiting for, so please be patient with us after you place your order. We give a "Lifetime Warranty" on our Custom Shop Guitars. In order to do this we must be allowed the time to build your instrument properly.

STANDARD SPECIFICATIONS FOR CUSTOM SHOP INSTRUMENTS

JACKSON REFERENCE SERIES HAND BUILT TUBE AMPLIFIERS

The overdrive sound is incredible. It has what you've always wanted. Tight low end response that doesn't give up as you crank up the volume. It never gets loose or mushy. The top end is simply beautiful, full and juicy or ripping and nasty. It's never tinny or trashy. Just superior all tube overdrive tone. With our clean channel circuitry, there's no guess work trying to set your pre-amp clean volume while adjusting the master. Our amps use one volume control on the clean channel so there's no need to worry about overload. This circuit completely separates the clean volume channel from the overdrive master, giving you two fully independent channels with the clearest and most powerful clean sound around. Designed and manufactured in America, Jackson's new line of all tube amplifiers brings you the finest in quality and pure performance. Choose a Jackson and you have chosen an impressive product using only the finest components and engineering. Listen to a Jackson Reference Series Amplifier and you will hear:

- * Amazing Tone and Versatility
- * The Finest Sounding Clean Channel
- * Road Proven Construction
- * The Most Musical Distortion
- * Easy to Use Controls
- * Ultra Quiet Operation
- * Super Quick Transient Attack
- * Tightly Controlled Low Bass
- * Incredible Punch and Drive

Reference 50

Capable of delivering sound pressure levels greater than many amplifiers with much higher power ratings, the Jackson Reference 50 is built using a specially designed power supply to insure that enough voltage is available to the output tubes, even in the most demanding playing situations. Most amplifiers built today are capable of only delivering one type of sound with authority. The Reference 50 delivers an amazingly warm clean crisp sound as well as a huge variety of over driven tones that will satisfy any guitarist. Easy to understand controls make it simple to dial up your sound on either of the two independent channels.

Reference 100

The Reference 100 pushes the envelope of sonic performance further than any amplifier built in the last twenty years. The pre-amp section is super-tuned for ultra quiet operation even in the high gain mode. Our massive high voltage power supply allows the Reference 100 to deliver dynamic range previously unthought of in a tube amplifier. When used in conjunction with one or two Jackson Reference Series 4x12 speaker cabinets you will find yourself with more power and sonic control than you have ever experienced before.

Apogee Combo

The Apogee Combo is perfectly suited for the studio or club. The clean channel delivers full bodied aggressive tone with a warmth that's usually only found in lower power vintage amplifiers. The Apogee is built around a pair of Celestion 12 inch Vintage Series high performance speakers for increased tonal range. The additional total flexibility offered by the Apogee's "sweet switch" further enhances the sonic possibilities this lethal combo offers.
