GENERAL INFORMATION

Ordering a custom instrument is a life long dream for most guitarists. Now you can get exactly the instrument you have always wanted, and know that it will live up to your expectations. The Jackson California Facility has been continuously creating custom guitars longer than any other factory in America. Building a custom instrument by hand takes a considerable amount of time, so please keep this in mind when you order. Typical construction times can be as long as thirty weeks. Good things are worth waiting for, so please be patient with us after you place your order. We give a "Lifetime Warranty" on our Custom Shop Guitars. In order to do this we must be allowed the time to build your instrument properly.
